1986, truck insurance rates by 13.4 to 16 percent and health insurance by 15 percent — and in extreme cases — 25 percent? Why are bus tickets in Geneva 15 percent more expensive this year than last? And why does a cup of black coffee that cost 1.8 Swiss francs last year now cost 2 francs, or 11 percent more?

People are beginning to wonder. The Tribune de Genève, Geneva's afternoon daily, in fact, has posed the question a little testily, in a fullpage article entitled "Zero Inflation in 1986; The Grand Hission."

Scattment seems to be growing here that like William Tell and Heidi, Switzerland's "zero inflation,"

The state of the s

is a presty myth.

The real inflation is perhaps as

about 3 percent now," says Marian International Hereld Tribune Stepczynski, an economist and fi-GENEVA — For most of the nancial analyst who writes a column for several Swiss publications. But it's there nevertheless."

Some say the discrepancy between the facts and the figures stems from the way the government totals up its data - by averaging

while some prices - especially for policies risen by 5 to 7 percent since food, rents, services and insurance - are edging up, the prices of petroleum, gasoline, diesel and heating oil plunged last year, canceling out the increases. The government, at least, main-

tains that inflation remains virtually nil, even if the June figures are higher than the 0.8 percent inflation rate for all of last year, and the minus 0.1 percent disinflation rate recorded in November.

So who could complain about that? At lot of people, it seems. There seems to be a consensus that prices are going up, even though the inflation rate doesn't show it," said an official of the Swiss Federation of Consumers in Bern. "We tell them that with the

WASHINGTON - Former

President Ferdinand E. Marcos of the Philippines plotted a military operation, scheduled to start Friday, to overthrow the government of his successor, Corazon C. Aquino, and take her hostage, according to tape recordings made public here and in Manila.

The recordings, of a conversa-tion between Mr. Marcos and a man posing as an arms dealer, prompted the Reagan administration to bar Mr. Marcos from leaving Hawaii, where he is living in exile, the State Department said. In the recordings, made public Thursday, Mr. Marcos said: "I am going to land there, I don't care

who opposes me."

According to the tapes, Mr. Marcos sought to buy tanks, anti-tank weapons, Stinger anti-aircraft mis-siles, recoilless rifles, grenade launchers, 50-caliber machine guns and 8,000 M-16 rifles, the standard infantry weapon of the U.S. Army.

The plot apparently never advanced very far because the people from whom Mr. Marcos was seeking to obtain financing and arms shared their information with the Philippine government, the U.S. Justice Department and the U.S.

Washington by the House Foreign Affairs subcommittee on Asia and the Pacific and in Manila by government officials.

In the Philippines, officials said Thursday that Mrs. Aquino knew of Mr. Marcoe's plan as early as

Appearing unruffled, she said Thursday: "I am very pleased that this statement came about at this time that, again, rumors are circulating that Mr. Marcos and/or Mrs. Marcos are planning to return home. This should put these rumors to rest."

Brigadier General Luis Villa-In a shore-to-ship contact, a crew Real said that when he learned of ember said the attack was carried the plan last month, as Mrs. Aquino's chief intelligence officer, he alexted the navy to watch for unusual arms shipments.

At Last, Shops That Meet the Need for Real English Shabbiness

By Mary Blume ttional Herold Tribune

LONDON - God, it is well known, is an Englishman and one of His most decorative creations is the gentleman: well-brushed hair, excellent shoes, his superiority masked by diffident clothes and a caseful air. The mixture is too subtle to imitate, but foreigners do try and try again.

They try too hard and everything is too right. They look too English, too perfect," says Ashley Lloyd-Jennings. "The real Englishman has a slightly casual way of putting things together. It's perfectly acceptable to wear a shirt that's slightly frayed at the cuffs, or even at the collar,"

It is also perfectly acceptable to wear smits belonging to deceased friends and relations, dead men's clothes as they are called. But in these socially mobile days not everyone has a pater who dressed in Savile Row, so in 1983 Lloyd-Jennings and Jeremy Hackett opened a shop on the unfash-ionable west and of King's Road, where they sold the best sort of used clothes and leather luggage. They were an immediate success.

Suddenly three more Hackett shops have spring up in the area near Parsons Green, which, it is said. is fast becoming known as Hackett's Cross. The new shops sell a complete line of new clothing for met, everything from pajamas to polo breeches and panama hats (the right kind, with a ridge, or rollaway as it is technically called, down the center instead of a dent), all of it made in England and all of it firmly traditional in style.

Prime Minister Bob Hawke of Australia is seeking a third

Hackett has also opened a colonial outpost at Bergdorf Goodman in New York and recently took over Cordings, an ancient sportswear store in Piccadilly that pioneered the rubberized raincoat and for many years featured as its sole window display a tank of water in which stood a rubber

The average Hackett customer is 35 years old. tends to shop on Saturdays wearing brown suede shoes with his jeans, and belongs to what might be called the hunting, fishing and shopping crowd. The clothes his customers choose, says Lloyd-Jennings, 42, are more a uniform than anything else. "I think the shop is an extension of school," he says. Public school, of course. "Everyone who works in the shop is also from

the same ilk. We have four Old Etonians, two from Gordonstoun, one from Marlborough, three or four from Stowe," Neither Hackett nor Lloyd-Jennines actually attended Eton but they do play tennis there with their shop hands and intend to open an Eton branch in October.

Traditionalists to the core, Hackett and Lloyd-Jennings will open an old-fashioned barbershop near Hackett's Cross at the end of this month: no stylists or blow-dries, just two middle-aged barbers trimming, lathering and slapping on hot towels. "There's a whole generation out there that has never had all that and will enjoy it," Lloyd-Jenmings says. There will also be a special line of toileuries, ivory-handled toothbrushes, loofahs and secondhand leather luggage. "It's really not done to arrive with a brand-new gun case or cartridge bag," Lloyd-Jennings says.

Many things are really not done, though foreign-

ers keep doing them. A gentleman should not, for example, wear a button-down collar in town. He may wear one in the country under a sweater made

"Our type of customers don't wear silk shirts or cashmere sweaters. They may have a cashmere sweater that was given to them for Christmas but we're not cashmere sweater people."

Argyle socks are not worn in town, nor should suede shoes be worn with town suits except on weekends. Bowler hats are infra dig.

"If you see a bowler hat in the City the man is from Birmingham or Manchester or very possibly Amsterdam. We do sell bowlers about three or four times a year, when you have the big military parades and all the officers have to have their bowlers. They don't even wear them, so often they come into the secondhand shop the day before the

parade and buy whatever size we have left." What Americans call ascots and the British call

India Imposes Curfew In Part of New Delhi as Mobs Attack Sikh Sites

By Sanjoy Hazarika
New York Times Service

NEW DELHI - Indian authorities ordered a curfew Thursday in part of the capital after anti-Sikh violence spread to neighborhoods in the west of New Delhi where mobs sought to set fire to Sikh temples, homes and businesses.

A police spokesman said that at least 150 persons were detained there and elsewhere in the city in connection with the violence and described the situation as "tense but under control."

Indian troops were standing by to assist the local city administration but police officials said the army had not been called out. No injuries or fatalities were reported. they added. A curfew had previously been ordered in the old walled city of Delhi, where Hindu-Mosem tension has persisted for weeks.

It was the second consecutive day of anti-Sikh rioting in northern India, in which nine persons were killed. The rioting occurred during a work stoppage called by an opposition party to protest the massa-cres of 72 Hindu bus passengers in the region by Sikh terrorists this

However, the protests did not deter Sikh terrorists from killing 11 more persons in Punjab on Wednesday night and Thursday. More than 500 persons have died this year in such clashes.

Prime Minister Rajiv Gandhi declared that he would not negotiate with the militants and vowed to crosh terrorism. Mr. Gandhi said at a meeting here that peace would return to the Punjab "only if killing in the name of religion is put to an

end," a news agency report said. Indian soldiers were called out during protests in six towns of Haryana state, which is between New Delhi and Punjab. A curfew was imposed at one of the towns. In addition, soldiers were summoned to assist local officials in two towns in the states of Uttar Pradesh and

South Africa White Group Meets ANC

DAKAR, Senegal (Romans).—A delegation of about 50 white South Africans expressed solidarity Thursday with members of the nullaway African National Congress in the crustale against aparitiesd.

At the opening of talks, Frederik ven Zyl Slabbert, the South African Paulonal Congress, the main underground movement fighting white minority rule in South Africa, shared a unlittent anti-spattised platform.

Mr. Slabbert said the vest was largely informational. "We have other not only to talk to our comparinots, but to find out more about the continent we live in." he said. "We do not see ourselves in a pention in negotiate because we samply do not have the power." Mr. Slabbert, a former leader of the libert, white opposition in the South African Parliament, has been condemned by white South African rightists for courting what they call a terroint organization.

The delegation includes liberal politicians, academics, writers and businessmen. Mr. Slabbert said he wanted them to share ideas with the African National Congress and break out of the cocoon of gaorance."

African National Congress and break out of the cocoon of gaorance."
He added that "the ANC must have a role in a peaceful solution in South
African's bitter racial conflict, although we have difficulty understanding
some of the naturality substitute and arrategies."

Kurdish Rebels Slay 20 in Turkey

ANKARA (Rennes) — Knodish insurgents killed 20 persons, 11 of them children, in two villages of southeast Turkey on Wednesday night hours after Prime Minister Duriet Oral urged the rebels to give up their struggle, the Anatolian Agency reported.

The semi-official Turkish nesse spency said separate groups of 20 to 25 raiders attacked the villages of Percent, near Idil town, and Yavah, near Midyat town, both in Mardin Province.

The killings occurred less than three weeks after the slaving of 30; people of Pinarcik village, also in Mardin.

TRAVEL UPDATE

French Air Controllers Reject Offer

PARIS (Reuters) — Transport Minister Jacques Douffiagnes offered a plan on Thursday to end the 12-week dispute with French air traffic controllers, but union leaders walked out of a meeting with him after less

than an hour, calling the plan a "provocation."

The unions said they would continue the brief early morning supposes they have carried out daily at French airports since April 21 in support of

defining on pay and promotions.

The minister said at a news conference that he would propose to create a private air traffic control agency and offer existing controllers the choice of joining the new body or remaining in the public sector. The change would allow the government to offer increases in salary and pension to those choosing private status without risking the apread of the measures into other public sector enterprises.

Two fearles, collided in fog on Long Island Sound in New York in Thursday, injuring at least 17 persons, two seriously. The North Star and the Cape Healopen belong to the Cross Sound Ferry Co., which makes regular runs between New Haven and Orient Point on the eastern third.

LEGEND: Zero Inflation Myth Crumbling for Swiss

(Continued from Page 1) fall in oil prices last year, it'll take some time for them to feel it. But they're impatient." A Geneva nurse and mother of

one who didn't want her name nised thinks that sort of impatience is understandable: "It's just not true that there's no inflation in Switzerland. Prices may go up unan-nounced, by 5 to 10 centimes at a time, but they're maing even so. The percer other day, a coffee cost me 20 centimes more."

But then again, inflation is rela-tive. In the dark days of 1974, doring what is known now as "The First Oil Shock," country skyrocketed by 10 percent And even that figure is the stuff of dreams in some developing coun-tries, where the price of coffee or just about everything else might not go up a few centimes, but a few dozen or even a comple of hundred a year, In Yugoslavia and Argentina, annual inflation is runn around 100 percent, and in Brazil it has touched 1,000 percent.

Swiss inflation, while "structurally inclined" to increase a few percent in real terms each year, according to Mr. Stepezynski, is a model that few nations can hope to

The people at the Swiss National

mit that inflation is a mite more than zero, but not really something to worry about — at least for now.
"Well, we never really had minus
0.7 inflation," said George Rich,
the bank's chief economist. "But it is true that it did fall almost to zero

Mr. Rich says that this is the evel the national bank would like to maintain, though it may well fail. He predicts a rising inflation rate this year, while the Union Bank of

during his testimony this week, the 10 What would best promote that and other presidential aides, that world was an arena for unrelenting security. ideological struggle, where seemor official Washington was seen as public. thoroughly untrustworthy.

Colonel North portrayed himself

In "a dangerous world," Colonel decisions in the nation's elections.

North said, there was no other way

But Colonel North pushed the as a main member of a little band. of patriots which, despite immense obstacles, managed to keep alive the Nicaraguan insurgency. The band included pilots on clandestine missions; the director of central intelligence, William J. Casey, and a few private citizens.

They were effective, he testified, despite a bureaucracy that resisted their efforts, an executive branch -tliat was full of critics of their tactics and a Congress that balked. .

He expressed not the slightest regret at his role in overriding opposition. He conceded that he and other staff members at the White House had systematically lied to and misinformed committees of Congress trying to discover what was going on; that made him "un-comfortable," he said, but he did it again and again.

Colonel North said that without "a handful" of brave people work-ing under his general direction who kept American aid flowing to the contra rebels in Nicaragua, the contras would have disappeared during the period when Congress had bauned direct or indirect military aid to the rebels - when, as the colonel said, "the Congress 'didn't care." Then he apologized for the last phrase.

The burden of his testimony was that he and his "superiors" -

In Haiti, the junta leader is Lieutenant General Henri Namphy. But those are dent Cerezo has yet to act on promises to not the only sites of the struggle. From Argentina to Guatemala, military officers increasingly treat elected leaders on sufferance - a reality swept from view by a crat, President José Napoleon Duarte, has Reagan administration too eager to paint democratic gains in bold, sunny colors.

The most significant battleground is Argentina. A year ago it appeared on the way to becoming the first Latin American republic to hold soldiers accountable for bloody excess. After his landshide 1983 election, President Raul Alfonsin broke with precedent by naming a blue-ribbon commission to report on abuses committed during the "dirty war" against terrorism a decade ago.

The report led to the trial of former junta

members, and to charges against hundreds of other officers. But this Easter, the government had to turn to the generals to quell a barracks revolt. In return, Mr. Alfonsin felt impelled to agree to an amnesty of all but 50 officers, dropping charges against those who merely "obeyed orders."

Tellingly, the day after the amnesty was enacted, the new army chief of staff called for further concessions to allay military fears. This was followed by reminders of

ernment since 1966. After 18 months, Presicarry out an inquiry into allegations of brutal massacres, especially of Indians.

In El Salvador, another Christian Demostalled for three years on naming a commis-sion he promised to inquire into mass killings. Salvadoran courts have not convicted a single officer for killing civilians, among them three American runs and a lay worker. In Peru, an elected civilian president, Alan Garcia Perez, is boxed in by a military wag-ing a savage war against fanatic leftists call-ing themselves the Shining Path. In Uruguay, a new democratic government wrestles with its conscience, and a widespread petition drive, after agreeing to overlook what hap-pened during a ferocious campaign in the

1970s against urban guerrillas. It is not all the fault of the generals; some see themselves as duty-bound to protect social order when civilians prove too timid. But until there is greater maturity among the soldiers, and courage among the political leaders, the new democracies cannot deepen their roots. That is what Washington should be saying as it boasts of democratic gains. - THE NEW YORK TIMES.

Oliver in Wonderland

Oliver North to have the chance to address allegations that he had taken personal gain from the covert operations in which he had a part. It afforded him the opportunity, which he used to the hilt, to present a portrait of himself as a brave, selfless, honest and much put-upon man whose life and family had been under terrorist threat. His testimony on issues of personal conduct may not have been the last word: He observed that he still faces the "extraordinary, unbridled, enormous investigation" of an independent counsel, and there will be further questioning by the committee.
But Colonel North's personal character,

though an interesting subject, is not the central issue before the committee. The essential purpose of the hearings is to provide a full public account of what happened in the Iran-contra affair, an account that will get to the bottom of the abuses of secret power that marked the government's action. So it was that Colonel North's second day of testimony, though it went heavily into his personal conduct, began also to cut toward core issues of the process and substance of policy.

By virtue of his talents and the recognition they brought him, Colonel North operated on a stage far grander than someone of satisfied that what he did was 1) right, 2) known and approved by higher authority and 3) legal. On Wednesday, he remained unshaken in his insistence on his own rectitude - aside from the admitted error of backdating documents on his home security system. The "lies" he admitted giving to Congress he sought to excuse by citing the "lives" supposedly saved by telling them a self-serving reading powerfully challenged by the Senate committee chairman,

Daniel Inouye, Democrat of Hawaii. The witness's assertion that his every act was approved began taking the bearings to the vital and politically volatile question of specifically who did the approving. On ednesday, some names were named.

On the subject of the Boland amendment, far from conceding error, Colonel North depicted the turn to new means of financing as a way to comply with, as he understood it, Boland's ban on the use of appropriated funds for an intelligence operation. This is the working and still current North view. But it is pure Alice in Wonderland. The whole apparatus of concealment that the Reagan administration constructed around its secret operations belies the contention that there was no problem of law. - THE WASHINGTON POST.

Remember the Voiceless

Recently, the Lawyers' Committee for Civil Rights Under Law sponsored visits by a number of South Africans. some of whom have been in prison, to tell their stories to the American public.

A state of emergency has existed in South Africa since June 1986. Since then, an estimated 25,000 people have been arrested without charge and held for indefinite periods of time. The Lawyers' Committee South Africa Project, which for two decades has been providing American support for legal assistance to political prisoners in that country, has financed the defense of 1,000 of those arrested. Their individual stories are moving, and the overall picture they present is terrible. One witness after another told of surprise roundups, raids on homes, schools and work places, arrests without explanation. Some prisoners were tortured, others held in solitary confinement and all suffered the frightening un-

under 18, and a few are as young as 8. Their families are not always notified of their whereabouts, and the young, once in custody, are held with and treated as, adults, They are not entitled to visits from parents. lawvers or independent doctors.

The political detention of vounesters is a particularly repulsive aspect of the crackdown in South Africa, but such injustice is no less acceptable for adults. We are not talking about people who have been charged with and tried for crimes. These people have lost their liberty because of a speech, an opinion, a club membership. They are confined without charges or trial and are kept for as long as the police choose to keep them. South Africa is not the only place in the world-where this happens, but it is a country where international pressures have some effect. Americans must continue to protest on behalf of those who have been silenced.

Bork: A Question of Ideology The nomination of Judge Robert Bork to

the U.S. Supreme Court poses a threat. In almost every context — remedies for racial discrimination, access to the courts, abortion, contraception, women's rights, protection for free expression, constitutional protections for the accused - Judge Bork has condemned the Supreme Court's efforts. His conception of the judicial function as controlled by the original intent of the Framers would keep the constitution in knee breeches and livery.

 Herman Schwartz, a professor of consti-tutional law at the American University, writing in The New York Times.

Robert Bork is one of the nation's top legal scholars. He won the highest possible rating from the American Bar Association when he was nominated to his present job on the appeals court in Washington. He should serve with equal distinction on the Supreme Court if the Senate confirms his nomination,

as it should. The Senate simply has no valid reason to reject Judge Bork without invoking ideological litmus tests of the type that have been scorned by the American people ever since Franklin D. Roosevelt tried to pack the

court with pro-New Deal appointees. In short, the liberal opposition to Judge Bork is based solely on the fact that he is a judicial conservative. Even more basically, the ideological assault against Judge Bork mocks the expressed will of the American people, who twice chose a president who campaigned on a promise to nominate judicial conservatives to the bench.

- The Denver Post

The Senate has long given Supreme Court nominees a free pass on their ideological qualifications. The obligation to consider the deology of nominees as regards their legal views is implicit in the confirmation process. In the interests of balance, moderation and the integrity of the Supreme Court, the Senate should reject Judge Bork's nomination. - From a column by Coretta Scott King.

OPINION

Arms Control: A New Way of Thinking, Plus 'True Zero'

The Best Form Of Defense Is A Real Defense

By Anders Boserup and Robert Nield

AMBRIDGE, England - The Warsaw Pact countries have proposed consultations between NATO and the Warsaw Pact on how to make their nonnuclear strategies less offensive and more defensive. It is high time the West responded to this novel and potentially most important opening. Europe is to be diminished - by agreement on intermediate-range nuclear missiles or by further steps - the problem of NATO's fear of Warsaw Pact nonnuclear forces must be faced. NATO, after all, acquired nuclear weapons and adopted its doctrine of "first use" to offset its perceived inferiority in nonnuclear forces; and fear of that inferiority is still the reason for its reliance on nuclear weapons.

The orthodox approach to the problem is to call for negotiations to reduce or check the level of nonnuclear forces, subject to the caveat - sometimes proclaimed almost as a war cry -- that there must always be a balance between the two sides. Balance is taken to be the precondition of security that must be preserved whether the level of forces is being lowered, raised or kept steady. There are two fundamental objec-

Their are two fundamental organizations to this approach.

The first is that the asymmetries and uncertainties between the geography, men, weapons, morale and every other attribute of the forces of any two natural that tions or alliances are so great that balance can never be measured, let alone agreed, without a high probabili-ty of dispute and deadlock. That is the immediate snag on which arms negotiations have broken down since the

beginning of this century.

And the problem of measuring balance will be far more difficult now, with nonnuclear forces so highly complex and diverse, than it was for pre-

Scrap the threat that lies at the heart of the confrontation in Europe.

war conventional forces or than it is for nuclear weapons, where numbers of warheads, megatournage and other physical units can be invoked. The second objection is that it is

not balance that brings security so much as whether the forces are designed, equipped and trained with emphasis on offense or defense. If NATO and the Warsaw Pact had equal and identical nonnuclear forces, but the character of those forces was such that they had strong offensive capabilities and were vulnerable to surprise attack, there could be no security; by attacking, either side could hope to knock out the other at the nonnuclear level.

making balanced reductions or balanced increases, in the size of those forces. With smaller or greater forces there would still be much the same possibility of a successful attack and the same fear of attack. Those risks derive from the offensive character of the two forces, not their size.

What matters for security is that the doctrine, structure, training and other characteristics of the forces of each side should be such that the ability to take the offensive is minimized, and the ability to defend and hold an attack maximized. If that strategy were successfully adopted. each side would find that its defensive capability exceeded its opponent's offensive capability. The military postures of each side would be reassuring not threatening, and con-sistent with the peaceful political aims that each side professes.

What this means in Europe is that the Soviet Union and the Warsaw Paci countries should change doctrine away from the notion that the best form of defense is retaliatory attack, and reduce their large tank armies and other features of their nonnuclear forces that frighten NATO, in favor of

a more defensive posture.

And NATO should eschew those features of its nonnuclear forces that frighten the Warsaw Pact -for example, the planned introduction of hightechnology nonnuclear missiles, which the Warsaw Pact countries view as a threat to their command structure and other important targets.

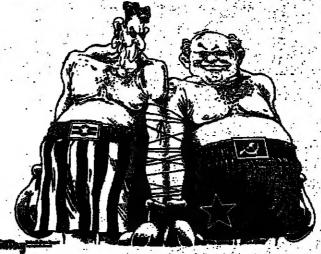

How should a change in this direc-

tion be achieved? It requires a reduc-tion in reliance on mobile armored forces with high potential to attack, or counterattack; a greater concentration on dispersed anti-tank forces, earth-works, mine fields and other less mobile, defensive forces: and a reduction in the capacity to attack concentrated forces and other vital targets.

Traditional negotiation of balanced changes is clearly not appropriate. Apart from the objections already mentioned, the changes required on one side, if it is to reduce offensiveness and increase the defensiveness of its forces, are likely often to differ in size and character from those required on the other. And by making some changes independently, one side might preserve or increase its security, even if the other made no change.

erative form of dialogue. Ideas of how to make military postures less offensive and more defensive need to be discussed; each side should tell the other what it fears and should try to meet the fears of the other. Formal agreements would be required when changes had to be ratified, or when symmetrical changes really were needed and a change by one side could not be risked without reciprocity.

This approach has a considerable following in West Germany, Denmark no clear constitutional impediment and the Netherlands, but it has not yet to that policy is discovered, they are

What is interesting and new is that since Mikhail Gorbachev came to power, the Soviet Union and the Warsaw Pact have taken up these ideas that originated in the West. Mr. Gorbachev has publicly said that the doctrine of the East bloc's nonnuclear forces must be defensive. The War-saw Pact countries declared that to be their position in June 1986. Then at the end of this May they proposed consultations with NATO at the expert level to compare and analyze military doctrines, and ensure that the doctrines of both blocs "be based

on defensive principles."

This is an opening of the greatest interest. Here are the Soviets saying they want to discuss with the Wes how to implement a defensive doctrine that implies that they should scrap their nomuclear offensive capability; in other words, scrap the threat that,

Colonel Oliver North has

ald Reagan's veracity or complicity

shipments to Iran. It is equally

One can think of plenty of cautions and reservations. It will be as great a challenge for the new Soviet leadership to impose radical new ideas on the military as it is to impose them on the economy. They may fail; it will take time; it might weaken their hold on Eastern Europe. But that in no way weakens the view that this is an opening to be taken up in a positive improvement over today's situation, spirit by the West. There is nothing to The SS-20 threat would be radically ose and a great deal to be gained.

Mr. Boserup, an associate professor of scientific theory at the University of Copenhagen, is a sentor researcher at the university's Center for Peace and Conflict Research. Mr. Nield, professor emeritus of economics at Cambridge University, is a praelector in strategic studies at Trinity College, be required to sacrifice. Let's Call Gorbachev on This: Ban All Medium-Range Missiles

By Kenneth L. Adelman

The writer is director of the U.S. Arms Control and Disarmament Agency.

WASHINGTON — The Soviet carrily. Considering that such rechessions were dismissed as not negotial about concluding an agreement on intermediate range nuclear forces in time for a possible summan meeting this fall. If the Soviets are serious shout this, they can do one thing to about this, they can do one thing to instrum step. But true zero — global help make it happen. More with climination of the missiles — would be help make it happen: Move with climination of the missiles—would America to the global climination of far better. Why is that?

Soviet SS-20 and SS-4 missiles and First true zero would be easier U.S. Pershing 2 and ground launched verify and easier to enforce.

cruise missiles. This "mie zero" solu
Bans are easier to verify that

siles carrying about 1,200 warheads that threaten Europe and Asia; and more than 100 single-warhead SS-4s.

That is more than six times the number of warheads deployed on Pes-shing 2 and ground-launched cruise missiles that the United States would

mination of the missiles — would be

U.S. Pershing 2 and ground launched cruise missiles. This "truit zero" achotion would expedite negotiations and make verification far less difficult.

As things stand, the INF (intermediate negotiation would permit both the United States and the Soviet Union to retain 100 warheads on these missiles and launchers remained legal missiles are legal or illegal. Under true true missiles are legal or illegal. Under true true missiles are legal or illegal. Under true missiles are legal or illegal under missiles are legal or illegal. Under true missiles are legal or illegal. Under true missiles are legal or illegal under missiles are legal or illegal under missiles are legal or illegal under missiles are legal or illegal. Under true missiles are legal or illegal under missiles are lega tain quarters to ignore or condone Soviet treaty violations

Second strategically global zero as a cleaner solution. As long as the Soviet Union secures small numbers of SS-20s, the United States and its allies will

20s, the United States and its allies will have to take those asselles into account in their defense planning.

Moreover, the continued existence of 33 SS-20s carrying three warheads each would permit the Soviet Umon to maintain an infrastructure capable of supporting a far larger force.

This is why near zero would require far more intrusive verification than true zero. A secret stock of such missiles might always he dealined or am-

siles might always be deployed or un-veiled in a crisis—like Hitter's unveil-ing of the illegal Luftwaffe.

Zero was what the United States set out to achieve. Near zero is an acceptable interim compromise. Residual intermediate-range forces of 190 was of beads on each side make no logical or strategic sense. The case for eliminat-ing the last 100 warheads is all the more compelling in the context of a possible global ban on shorter range

INF systems now being discussed.

Third, global zero would be even more behalf to Asian nations. Under mose helpful to Asian nations. Under note helpful to Asian nations. Under note helpful to SS-20s threatening. Asia would be reduced algorithment by more than 80 percent. Under true zero, they would be eliminated entirely.

Fourth, global zero would be preferable to the West Europeans. The SS-20 is a mobile missile. That messile that missiles remaining in Asia could be moved within range of Europe within days. During peacetime, that would be

days. During peacetime, that would be a strious violation of the agreement, but in a crisis all bets might be off. Western military planning would have to take these missiles into account. With given their stated commi-ment of arms reductions, the Soviets

sno legitimate grounds for oppos-

ulg a true zero outcome. Zero has certain advantages from Zero has certain advantages from the Soviet viewpoint: After all, the United States would be climinating its own medium-range missiles. Mr. Gorbacker has publicly raised the possibility of going to true zero, albeit on unacceptable terms (American withdrawal of additional nuclear forces that are not covered by the INF negotiations). The Soviets' acorpiance of true zero would lend or dence to their stated commitment more words than action thus far - to advancing genuine arms control.

The difference between near zero and true zero is one of those cases where, as Karl Marx said, a quantitative difference becomes a qualitative one. From every standpoint - erms control, strategy, politics — true zero would be the better result. Americans are ready for it. Are the Soviets?

The New York Times.

eve y American would agree — that attempted to warm the president of in a dangerous world, the United the folly of selling arms to Iran.

States must have the capacity to conduct covert actions in the interest of its national security.

The dilemma arises from the fact

By David S. Broder

The Answer Was Simply to Tell Congress

done the United States a service with his testimony on the Iran-contra conclusion but that these officials were acting with the authority and on behalf of the president.

The American public has grasped this point and the opinion polls measure the resultant demage to affair. By being the unapologetic, combative witness that he has been, he has brought into focus the real issue in this controversy.

That issue is not primarily Ron-

Mr. Reagan's credibility.
Colonei North's testimony was in this business. The president long Colonel North's testimony was since has acknowledged that he not crucial to establish any of these gave personal approval to the arms points. What he has helped the pubic understand is the exact nature of clear, not just from Colonel North's covert actions such as this and the

testimony but from the whole record, that the National Security Council operatives had — as Colo-nel North said — every reason to "assume" that the president also approved their use of the profits to

aid the contras in Nicaragua.

It would be convenient if Colone!

North had not shredded the doop. ments on which Mr. Reagan was... asked to indicate his approval of the transaction. But it is hardly vital to know whether Mr. Reagan's approval was explicit or implicit.

The president has defended as proper the solicitation of funds for the contras from private individuals

in America and from foreign governarms to Iran, there is no reason to believe he would have been offended by adding the Iranians to the list of contra contributors - what Colonel North still calls "a nest idea." The late William Casey, President Reagan's close friend, cam-

paign manager and choice as director of the Central Intelligence Agency, clearly knew about the deal. So did Rear Admiral John Poindexter, Mr. Reagan's national security adviser, and his predecessor, Robert McFarlane. If the president was in fact un-aware of the diversion, it is as clear as

can be that he could have learned of U.S. system of government, his re- tion of the other side. sponsibility for this transaction and

Blundy, he said, "By their very

nature, covert operations or special activities are a lie." At the very least, they involve steps to assure "plausi-ble deniability" for the U.S. government and its agents should anything go away and the operation be ex-posed in addition to concealment. it simply by asking a question of posed in addition to concealment, officials close at hand. Under the covert actions often involve decep-

for his own acts of commission or omission is crystal clear. No theory of accountability permits any other American public. As Colonel Northpeople had elected, and not with a

said, Americans cannot put a bub-ble over the country and discuss these matters among themselves. Yet if this is to be a government of law, covert actions and overt poli-

cies must reflect the people's will.

A procedure exists for resolving this offenma. It is the requirement that the executive branch give timely notice to the intelligence committees. of Congress of the covert operations it is conducting or contemplating. When Colonel North was asked.

however, if he wanted the Congress informed through its designated committees of what he and his assocommittees of what he and his asso-ciates were doing he said. "I didn't want to show Congress a single word on this whole thing." That general policy of defiance has been endorsed by Attorney General Edwin Meese and by the president himself. They assert that the president may delay notification for weeks of even notification for weeks of even months at his discretion.

That is a position that cannot be allowed to prevail if the United States is to remain a democratic society in more than name. There is a productial case to be made for the timely notice policy. Members of the intelligence committees, led by expensescod sensions.

dilemma they pose for a democratic society such as America's.

Colonel North says—and almost to public opinion would not have tree, y American would agree—that argument for timely notice. The president might have ignored the legislators, advice or their certain warning

against using any proceeds to help the commes. But if the notification requirement had been enforced, no subordinate could have risked even the possibility that the president was uninformed of the tran The responsibility for the deci sion would clearly have lodged, as it must with the man the American

The Washington Post

Bork Is a Jeffersonian, Not a Bogeyman of the Right

WASHINGTON — Leading the charge of the lightweight brigade against the nomination of Robert Bork to the U.S. Supreme Court, Senator Edward Kennedy conjures up nightmarish visions of an America "in which women would be forced into back-alley abortious," blacks

"sit at segregated hunch counters" and "rogue" police "break down cinzeus' doors in midnight raids." This twaddle is what Adlai Steven-son used to call white-collar McCarthyism. And it has as much to do with Judge Bork's real views or qualifica-tions for the bench as his red whiskers

or his Falstaffian girth.

Robert Bork is an upright and scholarly judge of uncommonly serious and coherent views about the appropriate constitutional role of the judiciary. He has laid out those views for all to read and consider in many elegant and witty essays and lectures. Those writings reveal that he is not a bogeyman of the far right, but a temperate and intelligent Jeffersonian.

If Senator Kennedy and others of

his persuasion cared enough to look closely at the views of their party's patron saint, they would be logically constrained to vote for Judge Bork, or to explain why Jeffersonian principles are no longer acceptable among conventional liberals. What does it mean, in 1987, to be a

judicial Jeffersonian? It means that with certain qualifications, usually ignored by demagogues, you believe that in a democracy people are best governed by the officials they elect free of overweening judicial supervision. If, for instance, a majority in a state legislature wants to ban the use of contraceptives or abortion, and if entitled to exercise a degree of coer-

correction. And the one thing that
the life to the life.

Judge Bork's problem, in other words, is that like Jefferson he finds judiciarchy," which recently has been the favored mode of enlightened change in our society, hard to square with any theory of democratic govenment, even one with a substrati of natural law. He once wrote, "If a judge should claim to possess a volwne of annotated natural law ... we would suspect that the source of the revelation was really no more exalted than the judge's viscera."

That view, though unusually austere, is neither novel nor exotic. What is not to be denied is that so restrictive a view of the judicial function can have real political consequences. Those consequences are a egitimate source, of inquiry in any confirmation process.

You could say to Judge Book, for instance: "This touching faith in leg-islative government is all very well, but legislators often do dumb and despotic things and I prefer to take . my chances with judicial supremacy." Judge Book's large deference to a judicially underregulated democracy might indeed be a reputable basis for

Amid Thatcher Revolution, Lenin's Bust Seems Dustier

The state of the s

By A.M. Rosenthal

basement floor of a modern-looking they know that if they are to avoid becoming entirely fossilized, they will first floor there is the usual collection of novels, biographies, travel guides Bat take the stairs down and suddenly, here is the world of radical kitsch.

On the shelves, the works of Marx and Lenin and the sayings of Che Guevara. Racks of sweatshirts demanding firm support for Nicaragua, Cuba, Angola; stacks of others emblazoned with Communist slogans - in Russian. Coffee

ON MY MIND

cups with "Nicaragua, No Pasaran" and bags of "frontline coffee" blended from Angolan, Tanzanian and Nicaraguan beans. Busts of Marx and Lenin and other heroes in plastic are for sale, and credit cards are accepted.

"Into-the-streets" leaflets are scattered about, and there are posters with fierce fists and bayonets. Taken all to-gether, this is as frightening and politi-cally significant in today's England as shops that dispense tea and scones. Rapid change, social movement and political action are indeed taking place in England. But they have nothing to do with the browsers in the radical basement or with the posters on the walls.

There is action in business boardrooms, where entrepreneurship and adventuresomeness are very much the style, complete with a few scandals. Across Britain, people who never owned a share of stock are buying a piece of the country, putting money min businesses once owned by the government but now turned over to public investment. At Heathrow Airport the government hawks shares in British sirports.

A month after their fromeing by Margaret Thatcher and the Conservative Party, the Labor Party and trade union officials are doing a lot of meeting and talking too, trying to figure out their future. Labor knows that the growing middle class, the sense of upward and

New Face for Labor?

ABOR's choice [is] somewhere be-Tween a shake-up and a bloodbath - weeks before the election and secretly Those who scared off voters by pushing blook control of the campaign from party the issues of race and secretlity to the sofficials into her own hands. Still, she forefront will be blamed by many party, was startled at the deep disaffection

knowledge that its problem is less one of ... Mrs. Thatcher will spend a lot more image than of demographics. Can a remember of the same and thought and a lot more money newed Labor Party emerge, capable of in those areas. She plans to run again, reaching the workers in declining industries, upwardly mobile consumers and the win over a lot of the hard-core Labor ravaged urban underclass? If not, Mrs. wote. That will be Margaret Thatcher's Thatcher may well realize her dream of execund revolution, even though she does remaining in power, the Queen Victoria, not have a hope of becoming a plastic until the end of the country.

George Mark to the Country.

George Mark to the Country.

TONDON - In this city full of book- onward that Mrs. Thatcher has given to shops, perhaps the quaintest is the so many, cost them the election. And have to spend the next few years not only fighting the prime minister, but

finding a new sense of purpose.

Unemployment is high and poverty-deep in many parts of the country. The prince of Wales seemed shocked the other day to discover shows in shining London. But Labor knows it needs more than the support of the unemployed or of the people on welfare to climb back into power. The election coordinator of the party now says that Labor has been negative, reactionary and defensive and that it should learn from Mrs. Thatcher's demands for radical change.

At 10 Downing Street, Mrs. Thatcher calmly goes on plotting revolution. She has carried out part of it already, stopping British socialism dead in its tracks. has moved the country toward thing that would seem neither revolutionary nor wildly conservative in the United States but was supposed to be forever dead in Britain: an expanding private economy with more and more participation by small investors and less

and less government ownership.

It would be fairly difficult for most
Democratic candidates in the United States to quarrel with most of Mrs. Thatcher's programs. But Labor social-ism had seemed deeply built into British law and attitudes. In the sense that revolution means changing history by mov-ing society in a different direction, Mrs. Thatcher is up there on the barricades.

She has two agendas. There is the public one that she and her opponents in Parliament will fight over changes in the education system, local texation and trade union rules that Labor says would weaken local government, where Labor tends to be stronger, and would transfer power to her government in London. Since that is exactly what she intends

to do -further weaken Labor and further strengthen the Conservatives — Mrs. Thatcher does not seem shocked at the accusation. She merely glares a bit more icily at the opposition. But her friends say she also has a private agenda that she intends to carry out.

She sensed trouble in the last few members anxions to find scapegous: shown toward her and her party in But the party will also have to ac-land and in other parts of Britain. shown toward her and her party in Scot-

Contempt for the Law

LETTERS TO THE EDITOR

Gannett's Savior

I was outraged to read of Allen H. Neuharth's parody of the Last Supper ("USA Today: Road to Survival Littered With Lasses," July 4). For Mr. Neuharth, chairman of Gan-

nett Co., to don a crown of thoms, serve guests wine and unleavened bread and compare himself to "the crucified one" because of his corporate losses in 1984 is an insult to Christians and Jews. What Christ did for humanity, Mr. Neuharth did as an egocentric manifestation of rage against an economic situation.

CLAIRE HALLER

Feeding India First

It is very disappointing to note the manner in which india carried out the sirift of food supplies to the Tamils in northern Sri Lanka. ("Indian Planes Drop Supplies to Tamils," June 5.) Sri Lanka denies there is starvation or

a shortage in the northern peninsula. Are the Indian authorities aware of the millions of starving in India who are roaming the streets, writing for the banana skin of a tourist, or digging into dusthins in search of food? Sri Lanka has not come to that stage yet. BRINDLEY FERNANDO.

Journalists Must Press Iraq Regarding "In Iron, Even the Weather Is a Secret, but News Gets Around" (June 3):

While admitting Iraq's singularly restrictive measures on the flow of information, Jim Hosgland allows that the authorities have designed "more pol-ished, noncommittal information policies" for the benefit of U.S. journalists.
One wonders whether Mr. Hosgland on Richard Nixon: Could Mr. Reagan has been permitted to visit the Kurdish have acted in a manner "contrary to his region, has been given free access to the trust as president" and "subversive of country's south, or been able to wander around, unaccompanied by an "interonal government"? GART MEISEN-VEHRS.

Lillchammer, Norway.

Ignoring Egyptian Needs Regarding the report "Egypt Will Build High-Tech U.S. Tank" (June 30);

Everybody who knows and love Egypt and is aware of the sufferings of the "little man" there must be horrified by Washington's idea of burdening the country with a tank factory.

Why doesn't the United States apply the same expertise to improving the Egyptian economy that it is said to have applied to the Israeli economy? It is vious that tank factories, like belicop-Regarding the opinion column "At Halftime of the Hearings, Reagan Is Las-ing Badly" (June 11) by James Reston: ter factories in Iran, do not contribute to the welfare of local citizens, nor to gratitude toward the United States,

> F.A. WOLF. Offingen, West Germany.

Don't Knock All the MBAs I was extremely troubled by the per-rading negative attitude in the article,

"U.S. MBA Programs in Europe: Meeting a Need, but How Well?" (June 29). During the interview with your reporter I was honest about the difficulties a new American MBA in Europe must overcome. I also pointed out the many educational advantages of quality American MBA programs in Europe. It is unfortunate that you chose to report primarily on the former.

I was quite surprised that nowhere in the article were there any comments from students enrolled in MBA pro-

grams, I assure you that in the Universi-ty of Harrford-Paris MBA program, both students and alumni feel they have received a rigorous, quality program. The companies that employ our gradu-

ates will reiterate that sentiment.

One must remember that American universities in Enrope are no different from American schools in the United States. Some are better than others.

JAMES B. KURISH. Assistant Dean for International Programs. University of Hartford.

Some Welcome to France

Regarding "Be Nice to Foreigners," (Traveler's Choice, June 19):

I loved the woman in Rennes who walked a mile out of her way to help two lost souls find the hostel. I loved the people at the bar in Pontorson who showered me with pens when I lost mine. I loved the two old ladies who made sure we got off at the right stop in Normandy. But I despised the man in the Tours train station who charged me twice for

the bikes we rented and would not re-turn my passport until I paid. (A long story.) I also despised the man at the Paris cafe who knew, after we pointed directly at the coffee ice cream, what we desired but brought us ice coffee instead and threatened to call the police unless we paid. I despise ice coffee.
I'm glad that the French have a new motto, "Welcome to France," but I

think the animosity runs too deep to be remedied by a few posters. I would love to return to beautiful France. But for now, I'm afraid to.

PAULA F. PICKERING. Alexandria Virginia

As the Firecrackers Die Out, Happiness Comes, Unpursued

By Ellen Goodman

wheels that carried the patriotic floats around the island have returned to their mundane lives as pickup trucks. Along the road, just a lew remnants of the Fourth of July remain: some broken balloons, some empty soda cans.

From time to time, the desultory pop of a leftover firecracker will echo across

MEANWHILE

the bay to the place where I am sitting in the sun, my literary prop open on my lap. The firecrackers sound like a slow staccato refrain, a holiday rerun. Here they go again. Life. Pop. Liberty. Pop. The Pursuit of Happiness. Pop, pop. My mind runs down the familiar list

of "unalienable rights" drawn up by the Americans who declared independence. It stops at the last one: pursuit of happi-

C ASCO BAY, Maine — The parade ness. What did those men have in mind?

They were too wise, or perhaps too politically savvy, to simply claim happiness as a right for their countrymen. They

claimed only the right to pursue it. Did they understand and share the restlessness of 18th-century Americans who continually picked up and went off in pursuit? Did they believe we were endowed with the unalienable right to follow illusions and whims as well as dreams and opportunities? Did they ap-prove of the American impatience with,

even intolerance of, unhappiness? I think of how diligently we Americans have upheld this right above all others. Migrating from East to West. house to house, marriage to marriage, job to job, one idea of the good life to another. Always in pursuit of happiness.

To this day, we know people who treat happiness as a puzzle whose final piece is always slightly out of reach. They call it a goal. Many Americans merchandise a great happiness kit with instructions to be followed precisely: add a home, a microwave oven, a compact disc player, the latest model car. Never complete. As planners, we often regard happi-

ness as a major production that only works when we gather a cast of characters, carefully script an event and outfit it with party hats and favors. A happy birthday, a happy Fourth of July.

I have been part of this. A few days ago, we joined the endless caravan of cars crawling out of the city toward the country in hot pursuit. Yet only now, after the elebration, in the quiet empty weekday. does happiness, like warmth, finally seep through my skin and into consciousness. I wonder if happiness, like something wild, gets skittish when pursued. Chase

it and it becomes coy, clusive. Plays hard to get. Perhaps it comes to people most easily when they're still, or hold out their lives quietly like an open hand. I have done my share of chasing and leaving. If I had been kept in my place,

the assignment handed me in my female childhood, I would have felt as trapped as any colonial. But it is clear to me that happiness is not a verb, it's a noun. It is not an action, it's an emotion. As for the men who made that list of unalienable rights, they would not be

surprised at us. They, too, were more adept at describing their colonial misery than the united state of happiness. But on days when the firecrackers recede into the distance and the sun is

warm, how easy it is to put aside pursuit, and let happiness roll in like the tide. Washington Post Writers Group.

GENERAL NEWS

ITALIAN CABINET RESIGNS — Prime Minister Amintore Fanfani, left, leaving the office of President Francesco Cossiga on Thursday in Rome after submitting the resignation of his caretaker cabinet. The resignation opens the way for Italy to end a crisis that began in March, when feuding among parties brought down the cabinet of Bettino Craxi and triggered June elections.

Knesset Upholds Definition of Jewry

By Thomas L. Friedman

New York Times Service JERUSALEM - Parliament has narrowly rejected three bills aimed at redefining the official Israch position on who is a Jew in a way that would have effectively demed the legitimacy of Reform and Conservative Judaism.

Votes on Wednesday by five Isracki Arab and one Druze member of the Knesset, or parliament, were critical in defeating, 62-53, the most important of the three bills, which was an amendment to the Law of Return.

That law provides that any Jew in the world can come to Israel and obtain immediate citizenship. For the purposes of that law, the government definés a Jew as anyone born of a Jewish mother or convert-

The defeated amendment, which was introduced by religious parties, would have added the words converted to Judaism "according to the Halacha," or Jewish law.

Israel's state-appointed chief rabbis, who come from the Orthodox stream of Judaism, do not recognize Reform and Conservative abbis as being authentic agents of Jewish law. If the amendment had passed, anyone converted by such rabbis would not have been consid-

antomatic citizenship.

The fact that the three bills were defeated by a combination of La-bor and small leftist and Arab parties was viewed as a political blow to Prime Minister Yitzhak Shamir. Even though he carried out his

part of a bargain with the religious parties, one of them, most likely Shas, a rigidly Orthodox one, may try to bring down his government

Rabbi Richard Hirsch, head of the international Reform movement, said, "The critical role played by the Arab members of parliament in defeating these bills just points up how absurd it is that a secular parliament should be legislating on who is a Jew."

"What it came down to." Rabbi Hirsch said, "was six Arabs sitting in Jerusalem determining who is a Jew in New York, Melbourne, Lon-All three of the defeated bills

were inspired by Israel's small religious parties and supported by the Likud bloc, led by Mr. Shamir. Likud's backing was given in re-

turn for the smaller parties' support of Mr. Shamir against Foreign organize an international peace with them.

ered a Jew in Israel or eligible for conference on the Middle East or to overturn the government.

The 120-seat parliament also defeated, 69-40, a bill that would have pardoned the still-imprisoned Jew-ish terrorists who were involved in attacks on Palestinians in the West Bank in 1985. Eight of the original 28 terrorists are still in jail, three of them serving sentences for murdering Arabs.
In an unexpected move, Mr. Sha-

mir voted in favor of the blanket pardon of the convicted terrorists. while Mr. Peres and his party voted with the majority against.

Aside from the bill amending the Law of Return, the two other bills proposed to grant Israel's two chief rabbis total authority over determining who can be registered as a

Currently, that power is vested in bureaucrats who do not examine whether someone converted to Judaism was converted by an Orthodox, Reform or Conservative rabb

The Likud version of that bill was rejected by 63-51 and the Shas version by 60-56. The difference had to do with the fact that some Likud members were not afraid to vote against their own bill, but were Minister Shimon Peres, the Labor afraid to vote against Shas because Party leader, and his efforts to to of the deal Mr. Shamir had struck

> Ilona Staller, known as "Cicciolina," recently became Italy's most controversial new deputy after a topless campaign that embarrassed even the Radical Party, which had put her up as a candidate. But no one, it seems, was more embarrassed than the owner of Il Gabbiano nightclub in Viareggio where the 38-yearold pornographic movie star staged a hard-core show only days after she was elected. When the arrived last Friday for another show at the club, she was refused entrance and her contract was canceled. The club issued a statement saying that Miss Staller's performance was "well below acceptable moral standards and indecent in an artistic and professional sense."

Only heads of government and chiefs of state will be allowed to drive in Paris in motorcades, Prime Minister Jacques Chirac of France has announced. Mr. Chirac said he was irritated by the increase in the number of motorcades French government officials driving through the city with "wailing sirens and escorted by police on motorcycles," causing traffic jams and exasperating citizens. Mr. Chirac said the decision had been made by "the prime minister, at the request of the mayor of Paris." The ma of Paris is Mr. Chirac.

-SYTSKE LOOUEN

A Conservative To Head Iceland's **Coalition Cabinet**

Agence France-Presse REYKJAVIK - After long political negotiations, President Vigdis Finnbogadottir has approved a new coalition government. It will be led by Thorsteinn Palsson, 39, the youngest prime minister in Ice-land's history, officials said.

The new administration, which emerged after a late April general election, groups Mr. Palsson's conservative Independence Party and its old coalition partner, the Progress Party, with the opposition Social Democrats.

In the government approved by Mrs. Finabogadottir late Wednesday, the outgoing Progress Party prime minister, Steingrimur Hermannsson, becomes foreign minister, while the Social Democratic leader, Jon Baldvin Hannibalsson, will be financial minister.

Mr. Palsson's government has 11 ministers, 4 from the Independence Party, 4 from the Progress Party and 3 from the Social Democrats. The three parties between them hold 41 of the 63 seats in the Althing, or parliament

HACKETT: Shops Multiply as Yuppies Yearn for 'Real' English Article "Usually the manufacturer has a (Continued from Page 1) fashion magazines and in fourteen young designer who's trying to who make the traditional look as a consecutive issues of Tatler, but sweep everything out of the way fashion item. The difference with

cravats are caddish if worn with an open shirt but O.K. when tucked mto a crew-neck sweater. Boxer, and never jockey-style, shorts are worn. Morning clothes should consist of a black jacket and striped or checked trousers (the Duke of Edinburgh commits an awful gaffe when he goes to Ascot in a gray morning suit, and so does Prince Charles), and a dinner jacket should be double-breasted with grosgrain lapels.

No one goes shooting in a Nor-folk jacket or one with leather patches. "You'd be laughed off the moors," Lloyd-Jennings says. You just wear a tweed jacket with a waistcoat, a tattersall checked shirt, a silk ne, not all those funny ties that they all do, plus fours and shooting socks." Lloyd-Jennings considers golf a bit wide, or caddish, but does a nice line in tennis

Hackett shops have a shrewdlyconceived timeless air. But if the have buttons and never zippers, front room exemplifies a world where the clock stands at ten to cloth, synthetic fabrics are banned three, in the back computer disks Fanatical about such details as butwhirl. NYSE Mixed on Profit-Taking NEW YORK — Prices on the New York tock Exchange finished mixed Thursday in a ession marked by profit-taking in many of the chip stocks.

Inc. market's performance was somethan a technical triumph."

Brokers said this lack of breadth prompted some traders to remain skeptical about the durability of the rally, and to cash in some of Stock Exchange finished mixed Thursday in a session marked by profit-taking in many of session marked by profit-taking in many of blue-chip stocks.

The Dow Jones industrial average fell 12.76 points to 2,451.21, after reaching a record high on Wednesday. But advancing issues outnumbered declines by about 9 to 8. The exchange's composite index slipped 0.27 point to 173.15.

Standard & Poor's index of 400 industrials fell 0.89 point to 358.91, and the S&P 500 was down 0.77 point at 307.52.

Volume totaled 195.40 million shares, down from 207.46 million in the previous session.

from 207.46 million in the previous sess One apparent drag on the market was a rise in open-market interest rates, which pushed prices of long-term government bonds down about one-half point, or \$5 on average for each \$1,000

Stock trading volume has increased this week as the market continued the rally it began in late May. Analysts have generally been hoping for a pickup in activity to suggest that investors are buying with confidence and conviction. But the market's "breadth" -- the number of

stocks participating in the advance—remained unimpressive Wednesday.

"The market had a very narrow advance with most measurements failing to confirm the new high in the DJIA, a condition which if not soon corrected usually leads to some problems," said Newton Zinder at E.F. Hutton & Co. in his

daily commentary.

The market's performance was

Golden Nugget was actively traded, 13½. Donald Trump, the financier, said he holds a 4.9 percent stake in the company, and indicated that he might seek to gain control of

Southland Corp., also active, climbed 1½ to 78. Some traders apparently are speculating that the company, which has agreed to be bought out by its founding family for \$77 a share, might attract a higher bidder.

Losers among the blue chips included American Express, down ¼ at 33½; General Electric, down ¾ at 55¼ and Philip Morris, down ½% at 91. Also lower were International Business Machines, down ¼ at 166¼ and RTP. Nebisso.

chines, down ½ at 166¼ and RJR Nabisco, down 1 at 53%. Airborne Freight fell 4½ to 28¼, posting one of the day's biggest percentage declines. Late Wednesday the company estimated lower earnings for the second quarter.

Control led the active list, up ¾ at 33¼. The stock which was added to Standard & Poor's

stock, which was added to Standard & Poor's 500-stock composite index, apparently benefited from buying by index funds that seek to duplicate the performance of the 500.

At the American Stock Exchange, the market value index hit a new high for the third straight day, closing at 346.79, up 0.22.

AIX-en-PROVENCE

Maix is France's summer capital of opera and vocal music, and the 40th festival has just opened with a new production of Strauss' "Der Rosenkavalier," conducted by Semyon Bychkov and staged by Tobias Richter, with Mechthild Gessendorf, Jeanne Filand, Christine Barbaux and Aage Haugland in the principal parts. Other operas in the festival, which continues to July 31, are a new production of Lully's "Psyche," conducted by Jean-Claude Malgoire, with his Grande Ecurie and Chambre du Roy instrumentalists, and staged by Jean-Claude Penchenat, Verdi's "Falstaff" in a production from the Theatre de la Monnaie in Brussels with José van Dam in Strauss, Lully and Verdi Theatre de la Monnaie in Brussels with José van Dam in the title role, Sylvain Cambreling conducting and in the staging by Luis Pasqual; a revival of Mozart's "Abduction From the Seraglio" in the Lyon Opera's production staged by Georges Lavaudant, Armin Jordan conducting and a concert performance of Gluck's "Iphigénis en Aulide" conducted by John Flint Gardiner, with a cast in-Aulide" conducted by John Eliot Gardiner, with a cast including Anne Sofie von Otter, José van Dam, John Aler and Gilles Cachemaille. Oratorio and sacred works in the Cathedrale Saint-Saweur include Durufle's Requiem, Handel's "Alexander's Feast," Monteverdi's "Vespri" and a Purcell program, all conducted by Harry Christo-

MARTIGNY

Toulouse-Lautrec in Switzerland

With works brought together from his mother's dona-tion to the Musée d'Albi and several Swiss private and public colections, Henri de Toulouse-Lautrec's can can dancers, prostitutes and entertainer people the Pierre nnada Foundation miliar figures of La Goulus, Jane Avril, May Milton, Yvette Guilbert and Arisjaunty black cape

and red scarf, need no introduction. The show accents the careful preparations for the highly colored posters of Paris night life he seemed to dash off without effort. Yet often, a portrait and two or three studies in oils were needed. Once the painter put his brosh to the fast ab-sorbing cardboard, retouching was almost impossible. Bo sides the lucid glimpses of the Paris night world in which Toulouse-Lautrec found refuge, there are oils, lithographs, early sketches of the horsy country living, riders and landscapes of his youth, illustrations, caricatures and the talented doodles in his Greek grammar. To Nov. 1.

BREGENZ

Offenbach on the Lake

■ The distinctive attribute of the Bregenz Festival (July 21-Aug. 24), in the chief city of Austria's western province of Vorariberg, is the image floating stage on Lake Constance, which this year is being used for a production of Offenbach's "Tales of Hoffmann," in a production by Jérôme Savary (of Grand Magic Circus fame) and conducted by Marc Soustrot. In the Festspielhaus, the opera pro-duction is Verdi's "Emani," with a cast that includes A Millo, Luis Lima, Renato Bruson and Pasta Burchu-Indze; concerts by the Vienna Symphony Orchestra under Pretre, Leinsdorf, Frühbeck de Burgos and Kitayenko, and the Ballets de Marseille with Roland Petit's "Blue An-

Tiepolo Chez Matisse

■ Twenty major paintings by Giambattista Tiepoko, along with 10 drawings and sketches and 80 engravings, have been assembled by the Muste Matisse for an exhibition running to Oct. 31. Works by the dominant figure in 18th-century Venetian painting have been borrowed from the Ca' Rezzonico and the Accademia in Venice, the Prado in Madrid and the Petit Palsis in Paris, During the same period, several of the museum's major works are on loan to the Museo Correr in Venice for the exhibition "Matisse and Italy."

Gilbert & George: A Particular View

We never have ideas. Our works are created without commonsense.

by Polly Devlin

ONDON -- When one walks into the Gilbert and George show at the Hayward Gallery, one is filled with dread and alarm. For to enter these big rooms full of light streaming, as it were, through stained glass, is like entering a cathedral. Instead we find here an anti-cathedral, a temple to the profane and even to the damned, and responses go onto red alert. Perhaps that is a measure of the power of the show, since it is posited only on the present, and a state of alarm is a condition many people live in day by day. But what a lonely, truncated and ted place this present is.

Everything that is ordinarily human and womanly in me bewails this exhibi-tion. Because for all its bright and pri-mary colors, it shricks despair, because in its reach - or lack of it - it intimidates; and because far from doing what Gilbert and George profess and aspire to do, which is to "speak across the barriers of knowledge directly to the People about their Life," they speak to me and the like of me not at all, for I do not, being a woman, exist. Indeed Gil-bert and George, binary artist and hu-man sculptors ("We don't collaborate, we are an artist"), are reported as having said that they would as soon have a fridge in their pictures as a woman Woman becomes The Disappeared in these enormous homoerotic pictures. Which, after all, is the artist's perogative, except that Gilbert and George harp on about their generosity towards the human race. Apart from their all-pervasive selves, their images are of young aggressive or supplicant men. The pictures are composed of specially colored photographs, mounted under a grid — hence the stained glass effect. Gilbert and George are now ensconced in an apparent state of ataraxy in the pantheon of 20th-century art, and indeed have been ever since they emerged fully fledged and covered in bronze paint from St. Martin's School of Art, London, in 1969, avoiding all labels and bent on creating a new democratic art in a demotic language and inhabiting a world where everything is given the same hert and significance, whether it is death or defecation. Thus, a picture of shit is given the same dimensions as that of a tree or a floating flower, or Christ.

On leaving college and being without a penny we were just there," they are quoted as saying in the catalogue. "Just the two physical presences Gilbert and George. We put on metallic makeup and became sculptures. Two bronze sculptures. Now we are speaking sculptures. Our whole life is one big sculpture." Their most famous manifestation at this period was performed to a 78-rpm re-cording of "Underneath the Arches" a tune that carries more than nostalgic music hall messages with it. When the song finished Gilbert, George, whichever, would get down from the living sculptures' pedestal, rewind the tape and repeat the routine for anywhere up to eight hours without deviation.

It is a measure of their success and acceptance that in November 1986 Gilbert and George won the Turner Prize as

the artists who had made the most significant contribution to British art dur-

The show at the Hayward - "Gilbert and George Pictures" - has already n seen in Bordeaux, Basel, Brussels Madrid and Munich. There is another large exhibition running concurrently at the Anthony d'Offay Gallery of their more recent work. D'Offay is more like an eminence grise for artists than a dealer; he seems to inaugurate and inspire his artists if only though his own pas-sion, and the huge panels on show there, even though they have titles like pairing, altogether less threatening and more beautiful than

Hayward. There is a story about Lenin that tells a good deal more about the man than perhaps one wants to know; that he didn't want to listen to music or read poetry, because it might divert him or soften his heart. In a morning's talk with Gilbert and George I heard the same things and remembered Yeats's lines, "The best lack all conviction, while the

worst are full of passionate intensity."
Gilbert and George do not listen to music. There is a saeva indignatio at the very question. "Certainly not. It is bad for the brain. We disapprove of the general rule that allows people to escape from reality and from the better, truer understanding of themselves." "What about Mozart?" I venture foolishly. Gilbert snorts, "Mozart. He's been dead for

three hundred years." George looks both fanatic and bored, "From what we've en music is a hindrance

My question is utterly inappropriate their beautiful dead house in the East End of London where these two men who seem deliberately to have robotized themselves into the opposite of exquisites, live among a vast collection of Aesthetic movement objects and furniture, but no domestic clutter at all. They have eliminated as much of the mess of human daily existence from their lives as possible; they have horrible style if only because they avoid the trappings of style so impeccably. They eat in the same cafe each day; wear the same somehow Orwellian uniform of gray suits and floral ties and highly polished brown shoes. Gilbert is Italian, George English, and they were both prodigies but neither nationality nor their past really counts. They are nothing but Gilbert and

I asked them whence came their ideas and inspiration. "We never have ideas. We work without consideration. Our works are created without common sense. We have our images from inside our head and we put it together piece by piece. We have a finished sense of how the piece will be when we start. We are moving at enormous speed toward the grave and we still have to reach a lot of

Geography and time and accident brought them together — not fate. "We don't have those sort of spooky feelings. We're rather ordinary lower class people, and we don't go in for that sort of

"What sort of thing?" I ask wildly, because when you miss the point a suppressed rage gusts of! George like a wind off marshes. (Very suppressed, because they live up to their inhuman manifesto: "Always be smartly dressed, well-groomed, relaxed, friendly, polite and in complete control.") "All those spooky feelings about mysteries in art. We simy accept life as it is."

"We're not involved with pleasure" they agree. "We know no one more miserable that we are," George adds. "I think good artists are only involved in ness." They seem unperturbed. They are not interested in art as an exploration of the artist's soul or the artist's psyche, "That's selfish," says George, his eyes assuming an almost prereflective stare. At other times George's eyes could cut cold steel.
'We're not involved in self service. We're not interested in improving our talent. The role of an artist is to look at life and improve what he thinks needs changing. An artist is trying to develop the idea of life. We have a highly developed sense of duty and service and purpose, and we are great believers in giving something in return for the gift of life. There are people who want to give and those who want to take, and the artist is a giver and must give himself entirely without sense of self. We are who we are and our art is for the viewer. Decadent

art speaks in a language that excludes people on class, age and race. Our art is fair to people. It is democratic. Art always was for the people; in earlier times, in medieval times, the peasants loved art, but then art began to serve the church, then the toffs.

"Our art encompasses people. Puz-zling, obscure and form-obsessed art is decadent and a cruel denial of the life of the people. When we make a work of art we allow for the viewer. The viewer is part of it; we make pictures to encourage and to change people and everyone is changed by seeing our pictures. They can't help but be, if you go to India you come back changed. If you see our pictures you are changed.

"Betterment is the essence of Western civilization. There has never been such a high state of development as now. The world is changing for the better all the

They look surprised at my skepticism, "Do you mean that literally" I say, "Is 1987, in your eyes, the apogee of human "Well not necessarily 1987," Gilbert

says. "Any given year is the best year "What about 1943?" I ask.

"We would say that it was always the best whatever year it was," George says. "Not if you were Jewish" I say.

"Well even Jewish people are fascinated by the recent history of war," George explains. "And life isn't divided into the good and the bad for us. We honor all its forms. We are not here to fight evil and do good. We're anti-artists who reflect life. Art has to be artificial.

"Just having different views is so difficult. If you're an artist you are going to be hurt. We get very frightened by criticism — an unhappy sickly feeling. Our foundations are shaken when we are attacked but we keep on because we know we are right. We have fought tooth and nail, day by day, we have clawed against tremendous opposition; but can you name an artist who has advanced civilization who hasn't met with tremendous opposition?"

It is rare for living artists to have a full scale exhibition at the Hayward, the Arts Council's showpiece gallery on the South Bank, "The Hayward Gallery what an opportunity for the nation to see the work of living artists — but it rarely happens." George shakes his head and would, one feels, register pain, had they not apparently convenanted not to register human emotions.

"Can you name a living artist who has had a major show there?" I mention the Boyle family. "Ah, but that wasn't the main show." George points out. "When I was a child living in Oxford I wanted to see modern art but there was nowhere l could go to see it; I could see any amount of stuffed fish and dead birds and old pictures but I couldn't see the work that was being done in the present. the art going on around us and which was part of life. An art exhibition ideally provides the opportunity for freedom be possible, it's a different kind of

It also provides a space for the viewer to respond in friendship to Their Art. which is another of their aims. "Each picture speaks of a 'Particular View' vhich the viewer may consider in the light of his own life. The true function of Art is to bring about new understanding. progress and advancement." There is no doubting Gilbert and George's appailing sincerity. ... "Gilbert and George Pictures 1982-

1986" is at the Hayward Gallery until Sept. 27: their work is also at Anthony D'Offay, 9 and 23 Dering Street, New Bond Street, London W.1.

The New Wizards and their Avant-Magic

by Glenn Collins

TANDING silently in a Las Vegas boardroom, Penn & Teller, the newwave co-conspirators, are facing the ordeal of their lives. They're on trial, hauled before the Magicians' Board of Appeals to face charges that the two performers have committed sins against the hallowed traditions of the magic profession. Some of the crimes are shocking indeed — such as exposing the secrets of magic. But even the minor crimes are scarcely forgivable: for example, Penn & Teller have publicly referred to card tricks as "intrinsically wimpy."
"Forthwith," the head magician intones,

"you shall be stripped of your doves, your rabbits and your mirrored boxes." "But we don't use any doves, rabbits or

mirrored boxes!" counters Penn Jillette. The head magician restrains his anger at such impertinence, and continues: "Furthermore, you can no longer call yourselves ma-

"But we don't call ourselves magicians!" gicians. says Jillette. Unable to restrain his wrath any longer

the head magician begins shouting "Guilty!" as the Magicians' Board of Appeals demands the maximum penalty, "And so — the magicians try to kill us," said Jillette delightedly, as he recounted the wholly fictitions doings of the mythical magicians' board. This is his favorite scene from "Penn & Teller Get Killed," the soon-to-be-filmed movie in which lillette (the large, verbal, abrasive one) and his partner, Teller (the diminutive, silent, lovable one), are, as it

might be expected, the stars. This scene, though fantasy, is an accurate reflection of the paradoxical state of magic This ancient form of dramatic entertainment, an actor's art as old as man, has been undergoing a surprising renaissance. Magicians as disparate as Doug Henning and David Copperfield have won large audiences on stage and television; magicisms have become fixtures on shows with perky demographics, like "Late Night With David Letterman" and "Saturday Night Live"; and a former street magician, Harry Anderson, has become the star of a mainstream television hit, "Night Court." These days, scarcely a comedy club in the United States is without a magician in its lineup, and last month, the Las Vegas performers Siegfried and Roy signed a \$57.5 million contract to make their magic show the featured attraction of Steve Wynn's new Golden Nugget casino resort.

Yet the irony is that some of the most celebrated young magicians — exemplars of "the new magic" or "avant-magic," as it is being billed — have rejected significant elements of the magical tradition. Some are even saying they feel uncomfortable about being associated with the word magic. "We think of it as the M word," said Jillette. "A lot of people who come to our show say, 'If I'd known you were magicians, I'd never

New York audiences will have an opportunity to see the art of a new generation of performers at the New York Sheraton Center in Manhattan. Six revue-style shows, titled "New Vandeville Magic," will be per-formed for the public, starting Friday at the hotel's Impetial Theater.

In a culture that has reduced most of its institutions to the status of talk-show-monologue material, it is hardly surprising that the traditional magician has become a target of opportunity. "The magician as descendant of the shaman - who has the aspect of the unsmiling bearded, august and majestic figure - perhaps we've rejected that," said the writer John Updike, no stranger to the supernatural, as was evident in his 1984 novel.
The Witches of Eastwick. "That isn't too hip now. It may be that the world is less religious and less open to the idea of the

magician with miraculous powers." And yet, the conjurer's art - performed cians - endures stubbornly and illogically in an age when millions can rent videotapes that show Hollywood miracles performed by special-effects wizards. The essence of magic now, as in the past, is

fooling people. Curiously, though, it is a characteristic of some of today's most interesting young magicians that "you may very well be fooled, but the new magic does not have the goal of fooling you," said Adam Fleischer, producer of the "New Vaudeville Magic" revue. "Magic is often the tool to reach a certain level of theatrical experience." In the old magic act "it used to be production — vanish, production — vanish," said Vito Lupo, using the magician's terms for the appearance and disappearance of objects, animals and people. "Now magicians are taking the tricks and connecting them to other images that are inside your head, that affect you on a deeper level."

For Lupo, that meant creating a whimsical Pierrot persona that mixed mime and magic in a way that tested the boundaries of traditional performance categories. "The mimes called me a magician, and the magicians called me a mime," he said, but in 1979 he went on to become the first American to win the Grand Prix award in stage magic at the Federation of International Societies of Magic competition in Brussels.

Although the comedy magician was a staple of vaudeville, to some observers it is the talking comedians of contemporary magic who are doing some surprisingly radical things. Among them are Penn & Teller. During their show - an Off Broadway phenomenon for 22 weeks that is now touring the country — the team reserves special venom for the "hocus-pocus profession," as Variety calls it. "The old magician, he's a guy who somehow got into the hobby when he was 12," said Teller, an Amherst-educated former high school teacher of Latin and Greek. (Teller is his full name as it appears on his passport, he says. But since Visa insisted on

live, before real audiences by actual magi- two names, his Visa card reads "Mr. Teller.") Penn & Teller do magic but claim that they are not magicians; instead, they insist they perform some new unclassifiable entertainment genre called, well, "Penn & Teller." "In our show we tell people, 'We are swindling you,' and that offends a lot of magicians," said Jillette. "We enjoy taking revenge on the magic community by breaking the fundamental rules of magic." For example, in exposing how one of the most ancient of conjurer's tricks, cups and balls — the shell game — is performed, Penn & Teller break the following rules: "Never do some-thing twice," Jillette said, "never tip the galf to the lay public, never let the audience see your preparation — and never, never do the cups and balls with clear-plastic cups!"

Aside from the self-referential twist to some of the contemporary magicians' performances, there is also "a more willfully analytical quality in their approach to magic," said Max Maven, a mentalist who has created illusions and written material for many magicians, including David Copperfield and Penn & Teller. For example, Maven and Teller have been known to talk into the wee hours of the morning about such things as the relationship between their work and Greek theater - a conversation that might have seemed less than engaging to many of the old vaudevillians.

The black hole of television exerts a powerful pull on the new crop of magicians, who know that David Copperfield and Doug Henning have won large audiences for their television specials.

"There is a built-in irony and ambiguity in magic," said Teller, "which imparts a strange sensation. It does funny things to your mind. you lose your place in the world, your sense of who you are. But you have to be there, use your own eveballs. If you see the same thing on television, well, it's like seeing 'My Favorite Martian.'

DORAL TUSCANY

Native American Art

by Sheryl Kornman

ARIS - Visitors to Paris who prowl the boutiques of Les Halles in search of cheap imitation American Indian jewelry will find it (made in Pakistan), but this month they can see the real thing in a traveling exhibit of Native American art and artifacts assembled by the Denver Art Museum in Colorado.
The exhibit, "The American In-

dians: Objects of Art and Daily Life," is at Art 4, Patrimoine du Monde, an underground gallery at La Defense, the suburban business and residential complex.

Much of American Indian art,

like the Native Americans themselves, has not survived. Most of what remains is either privately owned or stored in collections developed by colleges and universi-This collection repr

jects created in the late 19th and

early 20th centuries. It is accompa-nied by black-and-white photo-graphs of Native Americans wearing or displaying the same kinds of objects as those on exhibit. Rather than concentrating on coramics and jewelry, which would have been easy, the show also pro-

vides a study of baskets, sculpture and clothing, along with pottery and rings, bracelets, brooches and necklaces. Rare items, like kachina dolls and masks are included, along with the work of the prolific Navajos,

whose ornaments and blankets have survived in greater numbers simply because they have.

To transform the exhibit into lesson in the evolution of a people rather than an bosnage to a particu-lar style of design, the curator of Native Art at the Denver Museum

Richard Conn, has organized items not by tribe but by object. Even so, be has managed to include an impressive array of utilization and decorative objects from Indian tribes not only of the Southwest and Great Plains, but of tribes scattered in Alaska, Canada and New

Along with the widely copied al-ver and turquoise of the Navajos of Arizona are more obscure pieces: a hat made by the Haida of British Columbia, a sewing basket made

"During the 1950s we often went to West Berlin. There I saw the Family of Man' exhibition that was set up by Edward Steichen. I was an art student and after that the photo became my profession."

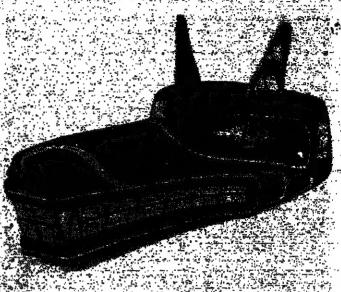

The results.

Fermaps the most surprising aspect of the exhibit is the display of ornately beaded clothing made by Indians, using beads and silk provided by friendly Western European explorers. WEEKEND

Remembering Truman Capote

by Thomas Quinn Curtiss

ARIS - Jack Dumphy, long a companion of Truman Capote and heir to his late friend's estate, came to Paris recently to revisit the places that the two had visited in the 1950s and 1960s when they traveled together and lived for some years in Europe. Dumphy, a distinguished novelist himself, was putting the finishing touches to his memoir of his association with Capote he calls it "Dear Geons . . . and McGraw-Hill is publishing it in the autumn.

Dumphy reports that writing about Capote is becoming an American industry. Six authors are toiling on biographies. Some of these never met him and others knew him only slightly. However, as Capote was constantly in the news from the appearance of his first novel, "Other Voices, Other Rooms," in 1948 until his last years when his inebriated comportment on television and in Secure halls made the front pages, there is probably sufficient material for another 20

Dumphy refers to his memoir as a sort of "miracle play." Actually it is more like a mystery play. In Dumphy's reminiscences Capote is the center of a complex story of a groping search for identity. Dumphy introduces himself as a dual character, pictured sometimes as a confident of Capote and sometimes as a priest of shaky faith who strives to fulfill his duties as a brotherly

Capote was born in New Orleans. He grew in the care of his alcoholic mother and her second husband, a shady gambler but a kind stepfather. An omnivorous reader with enormous curiosity, he taught himself. He never attended a university and believed that four years of college training would have been a waste of his time. When the family moved to New York he secured a job as an office boy at The New Yorker. Soon his stories were in the magazine's pages and his reportage in Vogue and Harper's Bazaar.

Short and stocky, the tawny hair on his large head was cut in bangs, giving his round face a baby aspect. He dressed any which way, but there was chic in the casual manner with which he were his pre-hippie get-ups. His voice was that of a child, high-pitched and having a trace of mush-mouthed Southern drawl. He gesticulated broadly as he beld forth, but what he said was provocative and amusing. He described those he spoke of with expert mimicry.

e America . The first

I met him first in a photographer's studio after his first novel had come out. Rumor of its importance ran before it and there were bids for film rights. Darryl Zannek bought the rights sight unseen for a fancy price.

"After he read it he said the only picture in it

was on the cover," Capote giggled.

The book's jacket had a photograph showing the author lounging in a hammock in a modish waistcost. This photo was reproduced in ads and accompanied reviews of the novel, introducing the latest literary star to the public as a petniant baby-faced dandy

Jack Dumphy (above) and Truman Capote at his desk, around 1970. "Is he trying to commit suicide in public," Tennessee Williams asked.

staring in wide-eyed surprise at his audience. It caused quite a sur.

Capote captured so much newspaper space that a reader complained that the only information one could find in the dailies was either about Harry Truman, then president of the United States, or Truman Capote. Gossip columns were filled with his quips and he became the pet of café society and society hostesses. A good mixer, he was soon mixing with those at the top, multimillionaires, the "beautiful people" and movie stars.

It was at this time that he and Dunphy met. Dumphy had just published his first novel: "John Fury," which dealt with Irish-American family life in his native town, Philadelphia. He was a more rugged individnalist than Capote, contemptuous of the mundane set that had taken up the wonder boy from the South. Dumphy was an athlete and a professional dancer and had appeared with his wife, Joan McCracken, in the hit musical, "Oklahoma," The two novice novelists decided to travel together in Italy and

In the summer of 1950 I happened on them in Sicily. They were sharing a villa in the Taomina hills with a garden of almond and orange trees and an entrancing name: Fontane Veochia.

"All summer there were fire-works on saints' days and the dark blue sky was tapestried with gushing chrysanthemums and leaping stars above the quiet gleam of fishing boats working tirelessly as we played." writes Dunphy. But the two authors worked diligently. Capote completed a book on his travels to exotic lands, "Local Color"; wrote The Grass Harp," and outlined his next novel, "Breakfast at Tiffany's." Dumphy fin-

ished his second novel, "Friends and Vagne Lovers."

After this fruitful session in self-imposed exile, Capote was seized with wanderlust. He went to Japan, then joined the "Porgy and Bess" troupe when it was invited to Russia. He recorded that East-West encounter with droll comment in his volume, "The Muses

He made his debut as a playwright with his dramatization of "The Grass Harp." It was lavishly produced on the New York stage with decor by Cecil Beaton and music by Virgil Thomson, but this delicate fantasy about two elderly aunts rearing their adoles-cent nephew in an Alabama village was too dreamy for Broadway. He followed it with "House of Flowers," a musical with a Harold Arlen score. Its setting was a vine-clustered brothel in Port-au-Prince and it prospered for a season. Capote wanted to disown it, feeling that his whimsical libretto had been vulgarized into a vandeville show for its star, Pearl Bailey. The theater, he sighed, was not

Writing screen scripts was less trying and more incretive. His scenario for the John Huston film, "Beat the Devil," brought him a small fortune and he enjoyed attending the location shooting in Italy. Later he was to appear in the movies as an actor and invaded television as a guest on talk shows.

When his eye happened on a dispatch about a mass murder in Kansas he found the subject for what he has long had in mind: a nonfiction novel. A farmer, his wife and their two children had been slain by two drifters. Capote went to Kansas, holed up in a motel, interviewed the killers, relatives and neighbors of the victims, and studied the temper of the community. The trial dragged

on and he flew off to ski in Switzerland to shape his observations for the story he would tell. He returned for the jury's verdict and witnessed the executions.

"In Cold Blood" created an immediate stir with its absorbing account of the crime and its punishment, and the sale of the book's film rights elevated Capote to high-tax sta-tus. The elated author celebrated his triumph by throwing a party that received worldwide attention: a masked ball at the Hotel Plaza. Everyone of prominence in the arts and in society was invited and all came. The wonder boy from the Alabama magnolia lands had found room at the top. The Plaza party was his apotheosis.

"In Cold Blood" enlarged his reputation as one of America's foremost authors and there was a curiosity about what he would do next. He had in mind a novel of epic scope about the rich and famous, the cosmopolitan smart set that guides fashions and trends. He was on intimate terms with most of its members and he envisioned a work comparable to Proust's masterpiece about the Parisian hand monde. He had selected a title: "Answered Prayers," inspired by the cautioning statement of Saint Theresa of Avila: "More tears are shed over answered prayers than unanswered ones."

Time passed without news of his progress on "Answered Prayers." However, several new stories gave evidence that his descriptive powers and insight were as sharp as ever. One of these, "Hand-Carved Coffins," a riveting, macabre novelette about revenge murders in a small town, is among his best work. A movie company purchased it for \$1 million and he was preparing its screenplay when he died.

Dunphy, in his memoir, switches from his

background narrative of Paris house disputes and sotto voce proselytizing to picture in lightning flashes the agonizing of the liter-ary Icarus who flew too high. Shortly after the glamorous Plaza festivities Capote in tears confessed to his friend that he depended on drink for inspiration. A compulsive alcoholic, he committed himself to clinics for "cures", but on release he went back to the bottle. He would disappear on pub crawls. He took to traveling frantically, flying to California or Florida without discernable purpose. He was hospitalized again and again. He joined Alcoholics Anonymous, but continued to drink secretly. Finding no

relief in alcohol he took to drugs as well. In 1975, excerpts from "Answered Prayers" were printed in Esquire magazine. The articles — under the heading "Unspoiled Monsters" — shook the author's admirers. He defined these extracts from his work-inprogress as "tail pieces" and in them he reviled those in high places who had befriended him, pillorying them with such excess that his intended stinging censure fell into cheap burlesque. It was not difficult to identify who was who, though he transpar-ently disguised his victims, but his caricatur-ing distorted them into incredible creatures, monsters indeed. There was no literary distinction to these exposes of "the sin of society." Capote's smooth flowing style, deep and rippling, had vanished together with his manners, his sense of proportion, his subtle

human beings.

This mud-slinging, as might have been expected, closed the doors of the great houses on him. He explained his fatal gaff childishly: "They knew I was a writer and they told me things."

humor and his sympathetic understanding of

His extravagant personality still fascinated the nation, though its society elite wanted to hear no more of him. The news about him, however, was bad news. His intoxication was often apparent when he was seen on television; he was arrested for drunken driving; and during a lecture at a Maryland university he had to be removed from the platform, drunk, incoherent and using obscene lan-

guage.
"Is he trying to commit suicide in public?"
"Is he trying to commit suicide in public?" inquired Tennessee Williams, who he had insulted in his "tail pieces." It appeared that

Once in delirium he muttered a confused story about the theft of his precious manuscript. Dumphy nursed him, but, exasperated by his broken promises never to touch another drop, shouted at him. "Do you know Thoreau's advice to the

town drunk?" "No, what?" Capote asked.

"Cut your throat".
Dumphy's explanation of his friend's violent attacks on those he had assiduously cultivated is simple: He went mad. The insane have the boon of irresponsibility, but other elements motivated his derangement. He was a non-conformist in continual contest with the status quo, the case of the artist of fearless independence. He had an open and nimble mind. He belonged to no clique. Both collective radical chic with its futile platitudes and WASPish law and order were alien to him. In his own fashion, he more effectively pleaded the cause of the excluded, the despised. He looked on life with a sense of childish wonder and saw things through an original temperament. He would have been a misfit in any society, as the authentic artist inevitably is.

FDP Threatens Lufthansa Clash

BONN — The Free Democratic Party, a junior member of West Germany's coalition government, attacked Thursday plans by a Ba-varian state-controlled bank to take a 5 percent stake in Lufthansa
AG and indicated the issue could
provoke a clash within the federal
government over financing for Airbus Industrie.

bus Industrie.

The party's general secretary, Helmut Haussmann, said that Bavaria's projected stake in the flag carrier, 'through Bayerische Landesbank, breached an agreement by the government to privatize state-held industry.

"We will not allow it," he said, adding that the FDP, in response, might oppose state funding for the German arm of Airbus, the European plane-making consortium.

WALL STREET WATCH

Market, Buoyed by Record, In Talks **Expected to Continue Climb**

By VARTANIG G. VARTAN

EW YORK - Investors were cheered Wednesday as the Dow Jones industrial average, the most closely watched barometer of the stock market, rose 14.19 to a record 2,463.97. Most market professionals expect stocks to chart an upward course over the rest of this year.

Their optimistic appraisal is anchored on what they see as likely prospects of moderate inflation, modest economic growth and ample supplies of money to invest.

In particular, the dollar's recent strength has encouraged stock buyers. By contrast, last opring's weakness in the dollar caused stock and bond prices to drop sharply. Looking ahead, a number of market strategists see any continued strength in the na-Only four postwar

tion's currency as speeding the flow of equity-bound money But market participants do not expect gains in the second half to match those of the first

years witnessed gains exceeding 1987's opening half. six months, when the Dow in-

dustrials charged ahead 27.56
percent, or 522.58 points, to finish at 2,418.53 on June 30.
For one thing, there is the sobering lesson of last year, when the Dow climbed 22.37 percent in the opening half and then limped through the final six months with a gain of 0.17 percent.

Only four entire years in the postwar era — 1954, 1958, 1975 and 1985 — witnessed gains exceeding the 27.56 percent advance of 1987's opening half. The Dow's top performers, with gains ranging from 135.29 percent down to 45.35 percent, were Bethlehem Steel, Goodyear Tire, Navistar International, Alcoa and USX. The only losers were Boeing, down 8.31 percent, and Primerica, off 1.04 percent.

'My target for the Dow in the second half is 2,750 to 2,800," said Linda Newman, president of the Atalanta Capital Corp., a money management concern in New York. "I like International Business Machines, Warner-Lambert and Merck, along with Time, Macmillan and Sara Lee," she said, adding that she would

still avoid the interest-sensitive groups.

"My target for the Dow is 2,700," said Greg A. Smith, investment strategist for Prudential-Bache Securities. "The distant cloud I spy has to do with the fact that the stock market continues to rally on what it has rallied on for the last three years — signs of lower interest rates," he added. "If the economy is to really improve as a result of the dollar's past weakness, interest rates simply aren't going to go lower. My hope is that the earnings reports this summer are going to loosen some of that interest rate

F THE STOCK MARKET does not start to discount improved profits and depend less on a better credit market, Mr. Smith warned, "I think we are in for a rough road after the

One unusual feature of this bull market is that stock prices kept climbing without any improvement in overall corporate profits. Falling interest rates permitted price-earnings multiples of stocks

"The days of multiple-driven advances in stock prices are over, in our opinion," said Robert S. Salomon Ir., head of equity research at Salomon Brothers. "We believe that a further increase in the stock market is now highly dependent on improvement in

When Shearson Lehman Brothers recently announced its list of When Shearson Lemman strothers recently amounted its int of 10 uncommon values in common stocks, Jack Rivkin, the director of research, suggested a trading range of 2,250 to 2,600 over the next 12 months. Shearson's 10 stocks are Baker Hughes, Cossial Corp., Cray Research, Hanson Trust, Hawley Group, McDonald's, Media General, NWA Inc., Service Corp. International and

Steven C. Leuthold, who heads the Leuthold Group, an investment advisory firm in Minnespous, sees the market dangerous high in terms of historic norms for book value, dividend yield carnings ratios and cash-flow multiples.

U.K. Bank With UBS

Hill Samuel Chief Resigns in Protest

By Peter Maass ternational Herald Tribune

International Revald Tribune
Hill Samuel Group PLC, the British merchant bank, said Thursday it is holding talks with Union Bank of Switzerland that could lead to a takeover bid by the Swiss bank. Hill Samuel also said its chief executive, Christopher Castleman, resigned, protesting the negotia-

The announcement of the talks brought a sharp jump in Hill Samu-el's share price, and other British merchant bank stocks also rose. Banking sources said the market appeared to believe that the Hill Samuel bid may be the start of a wave of takeovers in Britain's mer-

chant banking sector.
"It may be that we're into the much-forecast second wave of Big Bang acquisitions," said a senior British banker. The first wave of acquisitions came with the liberalization of the London financial sector with widespread acquisitions in 1984 and 1985 of British brokerage

Sources at Hill Samuel and UBS said that the talks are not yet at a final stage. "There is still some way to go," said a senior official at the tment firm J. Henry Schroder Wagg, which is advising UBS. "It's more likely to be weeks rather than days" before a deal is struck, he

Trading in Hill Samuel shares was briefly suspended Thursday morning to allow the firm to announce the talks and the resignanounce the talks and the resigna-tion of Mr. Castleman. Once trad-ing was resumed, the shares shot up 164 pence to 676 pence, valuing the merchant bank at about £600 mil-lion (\$972 million), sources said. The acquisition, if agreed on, would significantly increase UBS's

position on the London and international financial scene. UBS, the largest Swiss bank, already has a Eurobond-dealing unit in London, and it completed a takeover in 1985 of Phillips & Drew Ltd., a top London brokerage house. "It would make them a pretty

Soviet Sales Turn a Harsh Spotlight on Toshiba

Electronics Maker Hopes To Limit the Damage

TOKYO - For years, one word seemed to

describe Toshiba Corp. best: stodgy.

But under its chairman, Shoichi Saba and its president, Sogiichiro Watari that seemed to be changing. The Japanese electrical and communications giant, long known for its technical excellence, was finally shaking off its reputation for mediocre marketing.

Now Toshiba is trying to shake off something more damaging: harsh Western criticism over revelations that a subsidiary sold sophisticated machinery with military applications to the Soviet Union. And Mr. Saba and Mr. Watari are gone, sacrificial victims of one of the biggest technology scandals ever

to have engulfed a Japanese company.
With legislation pending before Congress
that could bar Toshiba from doing business
in the United States for two to five years, the company is being forced to look inward at how the scandal could have happened, and how it can rise above it.

According to U.S. officials, Toshiba Machine Co., a relatively small child of the parent company, violated Western security regulations covering exports of advanced machine tools to Communist countries. The officials say that the unit supplied propeller-milling equipment to the Soviet Union, permitting the Russians to construct submarines that run more quietly and thus are much harder to detect.

After the sales were revealed, Toshiba Corp. tried hard to distance itself from its subsidiary. But the resignations of Mr. Saba and Mr. Watari after just 15 months in their posts underscore the parent company's sense of responsibility in the affair. "We are feeling a grave responsibility for disturbing the world," Mr. Saba is reported to have said after he resigned.

According to analysts, the loss of Mr. Saba, 68, and Mr. Watari, 62, will hurt Toshiba, although the full impact may be limited since both will remain as advisors to the company.

The loss will be felt in other crucial ways as well. Toshiba — like the rest of its Japanese competitors — had been eager to participate in the U.S. space-based defense initiative, popularly know as Star Wars. But the U.S. Congress seems unlikely to trust Toshiba with the technological secrets of such a huge project, given the events of the last few months. Analysts say this could seriously undermine the company in its race against its

civals.

Company officials are not talking to the press. But Joichi Aoi, a 61-year-old senior executive vice president who has replaced Mr. Wateri as president — usually considered a more crucial job in Japan than chairman has said that if the sentions come to man - has said that if the sanctions come to pass, "a disasterous thing would take place,"

Toshiba ex-chairman, Shoichi Saba, with the new president, Joichi Aoi, left.

Toshiba's exports to the United States already suffering because of the dollar's plunge — account for an estimated 10 percent of the company's revenues.

The "Toshiba affair" - and the possibility of a ban from important U.S. technology contracts that would boost research and inpovation in consumer goods - represents a oig comedown for a company that has gained a solid reputation over the years for technical

In 1982, for example, Toshiba put into

operation the first seeing robot. More recently, it became the first company to mass-produce one-megabit dynamic random ac-cess memory, or DRAM, chips, heralding the next generation of computers. And this past April, it said it had developed the world's first wire made of a ceramic material capable of achieving superconductivity at relatively high

It is also one of the world's largest maker of consumer electronics goods — of which lap-See TOSHIBA, Page 15

Kongsberg: Out of the Shadows

A/S Kongsberg Vaspenfabrikk, the Nor-wegian arms maker, had until recently eluded controversy —even notice — aimost as deftly as one of nearly silent Soviet submarines that has the company in so much trouble with the United States.

But now its role in what is being called "the Toshiba affair" has made the state-owned company the subject of scrutiny and criticism on two continents.

on two continents.

Kongsberg, along with Toshiba Machine
Co., violated Western security agreements by
selling the Russians propeller-milling equipment. The advanced propellers that can be
made with the machine tools, permit Soviet submarines to run more quietly and evade detection, U.S. officials say. Kongsberg makes the numerical controllers and computer software needed to operate the machine tools.

The incident, first disclosed in May, has

embarrassed the Oslo government because the company is run by Norway's Ministry of Defense. In recent weeks the Americans have been particularly critical of Norway's initial inquiry, which resulted in an indictment of one unidentified British employee of Kongs-

A Kongsberg spokesman said that no top managers had been removed or replaced as result of the the sales to the Russians. However, the department involved in the sales has

In a new development on Wednesday, The New York Times reported that Oslo investigators were now examining more than 150 other shipments by Kongsberg to the Rus-

Thor Axelbush, the Norwegian prosecutor, told the Times that the Oslo authorities had confiscated thousands of pages of documents from Kongsberg and were trying to trace

U.S. Bill On Trade Is Assailed

Europeans Say It Would Trigger Countermoves

Compiled by Our Staff From Dispatches WASHINGTON — The European Community, after three days of inconclusive talks here, sharply criticized Thursday the trade legis-lation before the U.S. Congress. EC officials said it would set back world trade and trigger retaliatory action against U.S. exports.

The EC commissioner for external relations, Willy De Clercq, and the EC commissioner for agriculture, Frans Andriessen, made the attack in a statement issued after extensive talks with Senate and House leaders on the legislation.

The Europeans also seemed to reject President Ronald Reagan's call for a worldwide end to agricul-

"A complete phasing out, expos-ing European farmers to all that's happening on the world market, is not a foreseeable situation," said

Mr. Andriessen. In Geneva on Monday, U.S. trade representatives proposed that agricultural subsidies worldwide be eliminated within 10 years, and all

trade barriers end by the turn of the Mr. De Clercq warned that pas-sage of proposed protectionist trade legislation by Congress could lead to retaliation against U.S. ex-

ports to Europe. The EC officials said in their

statement that many of the proposals would affect the EC. (Reuters, AFP)

Victory for Labor

The Senate, in a showdown vote Thursday between business and labor interests, refused to remove from the trade bill an amendment forcing big comparies to give workers 60 days notice of plant closings or mass layoffs, United Press International reported from

The U.S. Chamber of Commerce said it would not support the trade

Whiz Kid of ZZZZ Best Is Called on the Carpet

Reputation Shattered by Charges

ASSET MANAGEMENT IN SWITZERLAND

Private banking clients have many different goals, but they all face one problem: how to protect and build their assets in an increasingly complex world. American Express Bank and its subsidiaries have a solution: asset management in Switzerland, a unique service combining traditional Swiss professionalism, prudence, and discretion.

Personal attention

As step one, our investment counselors will analyze your individual situation - including your financial goals and current investments - and advise you on the portfolio that best suits your needs. This may consist, for example, of short-term investments, equities, bonds, even precious metals, all carefully selected to give you an optimum balance of yield and security.

Our money managers then monitor your portfolio on a full-time basis, alert to any economic developments that may affect your investments. If you wish, we accept discretionary power to handle investment decisions on your behalf, in accordance with your personal goals. This is a practical, convenient arrangement, particularly if you reside outside of Switzerland. Also, while our approach is Swiss, our outlook

is global. Our network of 99 offices in 43 coun-

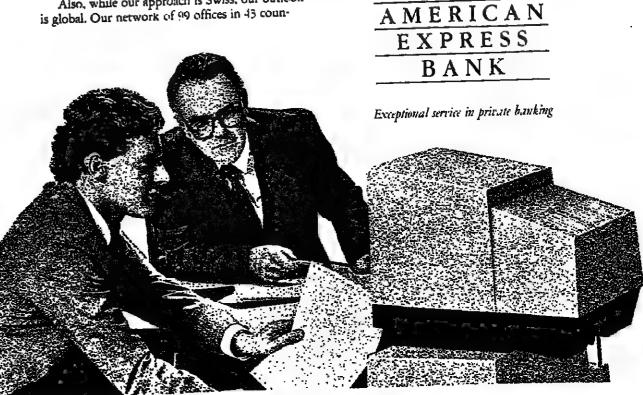

tries - one of the world's largest - gives us worldwide presence and access to extensive resources.

Finally, as part of the American Express family of companies, we can provide the discerning investor with a wide array of investment opportunities that few financial institutions can match.

Strictest confidence

If asset management in Switzerland makes sense to you, talk it over in strictest confidence with the professionals at American Express Bank (Switzerland) AG. Visit us soon, or telephone: In Zurich, Bahnhofstrasse 20, tel. 01/2196111; in Geneva, 7, rue du Mont-Blanc, tel. 022/32 65 80. Or contact your nearest American Express Bank office for

American Express Bank Ltd. is a wholly-owned subsidiary of American Express Company, which has assets of more iban USS99 billion and shareholders' equity in excess of US\$5.7 billion.

U.S. Oil Prices Go Over \$21 On News of Tanker Attack

Compiled by Our Staff From Dispatches NEW YORK - Oil prices rose past \$21 a barrel on the New York Mercantile Exchange on Thursday to the highest level in 18 months after an Iranian gunboat attacked an American-operated supertanker

West Texas intermediate - the benchmark U.S. crude for immediate delivery on the Merc - soared by 35 cents to \$21.23 a barrel. It was the first time that the crude had closed above the \$21 level

since it finished at \$21.27 a barrel on Jan. 20, 1986. Prices advanced in Europe, where North Sea Brent for July was trading as high as \$19.75, up 25 cents, and August cargoes were at \$19.65. The most widely traded Middle East crude, Dubai, was up 10 cents from Wednesday at \$17.55 a barrel.

The news of the attack provided further upward momentum to a market in which prices have risen sharply since last month's meeting of the Organization of Petroleum Exporting Countries in Vienna, during which new output controls were set for the rest of 1987. The supertanker, the Peconic, was registered in Liberia and under charter to a subsidiary of Texaco Inc. The final cargo would have been

about 2 million barrels, Texaco said. William Byers, analyst for Bear Stearns & Co., said the market probably would stay firm, without major movement. (UPI, Renders) REAL ESTATE

ordinary share.

Elsevier closed 1.20 guilders higher currently No. 2, would oust NV third-ranking Dutch publisher, at som slipped one guilder to 125.

Both bids value Kluwer, the at 58 guilders, while Wolters Sam-Verenigd Bezit VNU as the largest Dutch publisher.

Profits at Issue At French Banks

PARIS - French bank profits rose by more than 30 percent in 1986 to 120 billion francs (\$19.6 billion), but future profitability might not be assured if banks don't do more to cut costs, the Banking Commission

reported Thursday.
It said that while the average annual increase in operating costs had been out from nearly 20 percent in 1981 to 5.5 percent in 1986, the rate of growth was higher than the rate of in-

flation, 2.1 percent last year. Over the last four years operating costs had risen 42 percent while the consumer price index had risen 24.7 percent.

US Sprint's \$350 Million Charge Hurts Parents

at the long-distance phone company, after taxes, would be \$55 million, or 16 cents a share.

The companies said that the onetime charge at US Sprint would cover the writedown of obsolete equipment as it switched to a fiberoptic network and an increased provision for uncollectible custom-

GTE said its pretax share, or \$175 million, would be partially offset by a pretax gain of about \$75 million from pension settiments.

GTE, based in Stamford, Connecticut, said it would post a profit for the second quarter despite the US Sprint charge. GTE carned 78 cents a share for the first quarter and 92 cents a share for the second quarter of 1986.

United Telecommunications jarned 13 cents a share for the first quarter and 57 cents a share for the second quarter of last year. It said that US Sprint was making good progress in rectifying the billing problems that have burt the carrier's results ever since it was formed in June 1986, when GTE and United Telecom merged their ailing long-distance units.

Dow Jones' Net Rises NEW YORK - Dow Jones & Co. said Thursday that second-

quarter profit rose 16.9 percent to

What made the acquisition possible was an impossive financing structure put together by WPP and its 42-year-old chief executive, Martin S. Sorrell. The

package included a couple of distinctively British features and a new attitude toward risk in the derego-

Even smid the growing spate of trans-Atlantic take

overs, the WPP action was unprecedented for its speed, structure and equity risk. The cash was fi-

nanced largely by a tripling of WPP's shares outstand-ing. Previous trans-Atlantic deals have typically in-volved big British companies whose bids were financed internally or through bank loans:

Dainippon Ink Delays Buying Reichhold Stock

The American Press

NEW YORK — The successful \$566 million bid by a tiny British marketing company, WPP Group PLC, JWT on June 10, one of the options presented by First for the world's fourth-largest advertising concern, Boston was a minnow-swallows-whale corporate tale, the most daring and and accious move ever seen by NEW YORK — D Ink & Chemicals Inc., which has bid \$473 million for Reichhold Chemicals Inc., said Thursday it would delay acquiring Reichhold shares until Aug. 7, while Reichhold agreed to provide it with certain nonpub-lic information.

Dainippon said it extended its \$52.50 a share tender offer for the specialty chemical company through Aug. 6, instead of the original July 23 deadline. Reichhold's stock fell 62.5

cents Thursday to close at \$63.375 on the New York Stock Exchange.

Reichhold initially rejected the unsolicited offer. But Dainippon has indicated it might sweeten its bid, and Reichhold has said it was talking with other potential acquirers.

bank, Sammel Montagn & Co. Sammel Montagn and WPP began to assemble a stake in JWT, financed mainly by the merchant bank. Sammel Montagn & Co. amknown. Dollar Slips in Moderate Trading

NEW YORK - The dollar eased slightly Thursday against most major currencies in New York and Europe, but its retreat against ilie Japanese yen was halted by a statement from the U.S. trade representative, Clayton K. Yeutter.

Mr. Yentler's comment that the United States is competitive at current yen/dollar rates underpinned the market, dealers said, but his francs from 1.5345, but eased to much enthusiasm in a subdued market.

It rose slightly so 1.5355 Swiss francs from 1.5345, but eased to 6.1310 French francs after 6.1420.

The British round also said to 1.5355 Swiss france frances after 6.1420. A Second

Taiwan Eases Currency Rules

TAIPEI — Taiwan, holder of the world's third-largest foreign exchange reserves, announced sweeping changes Thursday to allow businesses to freely invest their export earnings overseas for the first

The new measures are intended to reduce Taiwan's reserves of \$62

billion, surpassed only by those of Japan and West Germany, and

thus reduce inflationary pressures.

A central bank official said that starting next Wednesday, Taiwan

ese companies or individuals would be able to buy and use \$5 million

Pinlip Chou, head of the central bank's foreign exchange depart

ment, said there would be no restriction on where investors put their money overseas. Taiwan companies and individuals have been al-

lowed to invest in foreign bonds, certificates of deposit and treasury

The foreign exchange reserves are mainly the result of large merchandise trade surpluses with the United States, which has said that Taiwan must open its markets or face retaliatory legislation from

Under previous foreign exchange controls, all capital outflows have

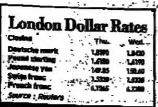

required government approval, and individuals have been allowed to send out no more than \$5,000 annually.

Also Thursday, the government said it would limit to \$50,000 annually the amount of capital inflows allowed to individuals, in an

Economists estimate that in the past year about \$10 billion in speculative money has poured into Taiwan, further boosing nearwes. In March, the government put limits on single currency remittances to Taiwan of \$10,000 by individuals and \$1 million by companies. But businessmen divided their money into smaller units to beat the rule.

effort to stop speculation on the appreciating Taiwan dollar.

To Reduce Swollen Reserves

The British pound also slipped against the dollar, to \$1.6180 from

\$1.6188,

lower at 150.20 yen, down from francs on Wednesday, and 6.1265 Federal Reserve said Thursday, 1.8390 DM, after 1.8405.

winsor McCay deserves an honored place in any history of American popular art. In the decade before World War I, he won fame as a master of the comic strip (arguably the greatest there has ever been) and, on a lesser scale, as the most imaginative early pioneer of the animated cartoon; and although he was never again to match the achievements of those years, he continued to command a wide following as an editorial cartoonist for the Hearst ing as an editional cartoonist for the Hearst

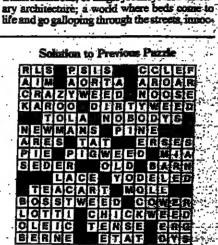

newspapers until his death in 1934. After that, his name was quickly forgotten, except by specialists and a few fans. In 1966, a sampling of his work was featured in an exhibition at the Metropolitan Museum, in New York, since then, he has attracted sporadic attention from critics, and he is much admired by many of his present-day successors, such as Garry Trudeau.

John Canemaker's biography (the first, unless you count one written by a newspaper colleague, that has never been published) should go a long way toward putting McCay firmly back on the map. Its most valuable feature is a lavish selection of his pictures. beautifully reproduced, many of them in color. But Canemaker's text is also of great innerest. He satisfies your curiosity about McCay's life, sets him in the context of his times and comments perceptively on his art.

Working first in Chicago and then Cincinnati. McCay designed circus posters, drew lightning sketches in dime museums, took whatever journalistic assignments came to hand. Eventually, in 1903, he moved to New York and began drawing cartoons and comic strips for The New York Herald. The following year, he devised his first really original strips, "Little Sammy Sneeze" ("He never knew when it was coming") and "Dream of the Rarchit Fiend." The second of these, with its indigestion-induced nightmares, led on naturally to his finest achievement, "Little Nemo in Slumberlead." This heaven publication in 1905. berland," which began publication in 1905— Little Nemo being a small boy who dreamed his way through each episode until he woke up

ं दर्ध स्थ

Wait. The owner's on his feet in the press box. plays in El Paso. Could it be? Yes! He shoots his hands up in the touchdown signal as the home team scores its seventh run of the inning. And the bases, as they say again and again, are still F-O-D, Full of Diablos.

Come on down to the Dudley Dome, also known as the House of Thrills, home of Your El Paso Diablos, the Class AA farm team of the Milwaukee Brewers and defending champions of the most colorful league in the minors, the century-old Texas League. When people here say they are going to the circus, this is where they end up, for an evening of sights, sounds, smells and surprises.

whack! George (Panama) Canale, an all-America first baseman, just called up from Class A ball, hits a jarand-slam home run. He rounds third, toes the plate and heads directly toward the box seats, where he holds out his heimet as little kids fill it up with dollar bills, an El Paso tradition.
What's that smell? It must be Mona the Elephant

across the way in the 200. Sometimes, when the Dia-hios really need a comeback, the fans start their "Wake Up Mona" chant. Sometimes Mona wakes

them up. Or maybe it's the nearby sewage-treatment plant. Depends on which way the wind blows.

Who's that old codger up near the press box waving the Green Wienie Flag? That means a rally is in progress, good for at least two more runs. The place is vibrating with the shrieks of an old-fashioned Diablos whistle rally. Annie (the Fanny) Tudor, the Yugoslavi-an baseball nut, can really make a lot of noise from her seat along the third base line.

Lavelle Freeman, who sports a modest 401 batting average, slaps a double off the wall. Up steps

Every day, I look in the papers and see that somewhere there are scores of 2-1 or 3-2. Not here. You get a home run, and they give you dollar bills. You pitch a shutout and they say the pitcher

can pass his hat, but who's gonna be around . . . I've never seen a shutout anyway."

— Pitcher Alan Sadler

Eccessary Ernie Riles, the shortstop the Browers sent to El Paso for injury rehabilitation. He pokes one to the top of the Green Monster, the 36-foot (11-meter)

the top of the Green Monster, the 36-foot (11-meter) wall atop a center-field slope that keeps the canal these from flooding the field. Ever seen an outheld feace like this one? Forty-two wall ads; double-deckned from left to right, all hand pented in beight colors against a garish yellow background.

Time to gaze into the visitor's deposit, the one with "ENEMY" painted on top in big bright letters. There goes the San Antonio Dodgers' manager out to the mound. His pitcher has just given up five doubles, a triple, the grand slam, two walls and eight runs in two-thirds of an imming. Not a bad outing, here. His carned-run average might even go down. carned-run average might even go down.
The public address announcer urges the fans to listen

in as the Dodgers congregate on the mound. Then he plays the Abbott and Costello routine of "Who's on

depart, 2,000 fairs pail out white natures and wave them to the accompaniment of "Bye-Bye Baby."

After three immings, the home team leads, 19-3, but there is no comfortable margin in the Dudley Dome. Just recently, against the Midland Angels, one of the promising young pitchers in the Brewers' chain took a 14-3 lead into the late immings and failed to gain a decision. Isn't that the same gry pitching again ton Yes! Yogi Berra must have been to El Paso before he said it ain't over till it's over. And that's usually a longtime. In the Midland series, a Texas League record was

set for longest nine-inning game: 4 hours, 15 minutes.
The air is dry and light here, and the outfield fences are no more than 330 feet away in the power alleys of left- and right-center. That explains part of the zani-ness of the hard-ball devils. Devils is English for Diablos, and about 65 percent of the fans are Hispanic. All of the fans are bilingually loony, none more so

than Jim Paul, the team's owner. He bought the club in 1974 for \$1,000 and \$52,000 in debts to 72 creditors. Then, he said, the most important employee was the grounds keeper, who had to wake up a few hundred dezing fans each night when the game coded. The essence of Paul's personality is that, more than anything else, he hates to be bored.

Baseball was an odd choice for someone with Paul's attention span, but he did not have many options. He began his athletic career in the early 1960s as a guard on the Texas Western basketball team that won the national collegiste championship. He made it through the first year, he said, only because the administration assumed that anyone who couldn't jump, run or shoot must be a good student. His scholastic average was 0.6, but no one checked. After three consecutive lousy sets of grades, Paul was flunked our, joined the army and saw Vietnam.

He returned sober and serious about school, if nothing else, and worked in the sports office during his second time around at the university, which by then had changed its name to the University of Texas at El Paso. He graduated on the dean's list. Then Paul began working as assistant sports information director at Kent State University, the year after the infamous National Guard shootings, and from there moved to a citadel of scholar-athleticism, the University of Southwest Louisiana, whose teams are called the Ragin' National Collegiste Athletic Association abolished their basketball program for three years. Cajuns. At the time, they had cheated so much that the

They were hit with about 2,000 violations, but only 1,000 of them were true," said Paul, whose wit is styled after that of writer Dan Jenkins.

Paul returned to El Paso when Southwest Louisiana refused to make him an assistant athletic director. Friends had bought the ball club here but bailed out riends had bought the oatt cam and debts. He after a year and left Paul holding team and debts. He Boston Bottimers turned it around in two years, increasing attendance from 60,000 to more than 200,000. He used every trick in the book. He held promotions every night, giving away everything from pizzas and caps to television sets and automobiles. He brought in cheerleaders to dance Cuttornio on the dugout. He bired the loudest, craziest announcer be could find to lead the cheers. He made it fun to go to cisesso the ballpark for everyone except the visiting teams.

Paul recalled a time in the 1970s when Joe Frazier, who later managed the New York Mets, was here as st Louis the manager of a visiting team and became so enraged at the announcer's antics that he climbed the fence and began bulling his way toward the press box before

being restrained by an police officer. We were called bush leaguers, among the moor things," Paul said of those early years. "One team complained to the Texas League commissioner, who then was

at the forefront of a bush-league revival that, in the last 10 years, has seen about two-thirds of the 144 hitters!

about how it might play in New York or Boston. It

In recent times, the Diablos have been affiliated with two major-league clubs: the California Angels, then the Brewers. The main reason for the switch was Harry Dalton, who moved from general manager of the Angels to join the Brewers and, as quickly as possible, brought the El Paso club with him. The Brewers believe that the pluses here — weather, crowds and management's enthusiasm — outweigh the one big minns: the psychological damage inflicted

on young pitchers.

A few years ago, Dalton visited El Paso to assess the pitching staff. The Diablos were playing the Beaumont Golden Gators and, in honor of the visiting dignitary, they put on a real Texas League show. The final score was Your El Paso Diablos 35, Beaumont 21 a league was Your El Paso Diablos 35, Beaumont 21, a league record for runs scored in one game. In the ninth inning, when Beaumont scored its final run, some people in the press box were puzzled by Dalton's

clapping and cheering.
"Why are you cheering?" someone asked.
"Became 35 to 21 is a better football score," Dalton

sports wires that night, it was followed by the paren-thetical note: "(NOT A FOOTBALL SCORE)." They

thetical note: "(NOTA FOOTBALL SCORE)." They have to use that phrase a lot in El Paso.

Everybody gets a kick out of the whole thing except the Diablos' nine pitchers. "Pitching for this team is tough," said the general manager, Rick Patr. "If you can pitch here, you can pitch anywhere."

If you can get out of here, that is. One of this year's pitchers is Alam Sadler, 25. What's it like to pitch in El Paso. Alam?

Terrible. It just screws you up totally. You jam a

guy inside, a good pitch, and the wind blows it out. Every day, I look in the papers and see that somewhere there are scores of 2-1 or 3-2. Not here. I can't think of another place worse to play, for a pitcher. The hitters love it here. You get a home run, and they give you dollar bills. You pitch a shutout and they say the pitcher can pass his hat, but who's gonna be around to give him money after the game? I've never seen a annout anyway."

Sadler is on the disabled list now with a sore elbow He has a 1-5 record with an earned-run average of 8.37. His worst outing? 'I got them out 1-2-3 in the first but never made it out of the second. You can't walk anybody down here. The wall is so close. I gave up three and left with the bases loaded, and a gny hits a double off the wall and clears them. I still haven't gotten over it. I don't know if I ever will."

The Diablos' manager, Duffy Dyer, a former catcher for the New York Mets, said he has a long talk with his pitchers before the season. "I tell them, look, you're going to have to eliminate the walks. They hurt you anywhere, but here they kill you. Anybody's got the power to hit one out, from the leadoff man on up. A 4.00 ERA here is very good. Even 4.50 or 5.00 is

Everything is topsy-turvy in the Dudley Dome. It was so named in 1978 when, night after night, rain fell on every section of the city except within the friendly confines of Dudley Field. Whenever a rainstorm approaches, the announcer says it's time to put on the dome, and he makes weird noises as an ima closes overhead. It works. Twice during the San Antonio series, rain fell everywhere but inside the dome. Play had to be stopped twice because sandstorms blew from left field, but the rain never fell, and the hitters never stopped hitting

plays the Abbott and Costello routine of "Who's on First" over the sound system. As pitcher and manager depart, 2,000 fans pull out white hankies and wave them to the accompaniment of "Bye-Bye Baby."

After three immings, the home team leads, 19-3, but there is no comfortable margin in the Dudley Dome. "field goals" for 13. 25 to 13 (NOT A FOOTBALL SCORE). How would you like to score 13 runs and the Midland Angels, one of the lose by 12? But you know what they say at the Dudley Dome: You can never get enough.

Danny Jackson, the Royals' pitcher, tried to defend himself as Brett Butler leaped to the attack after dodging two pitches. The Indians again won, after another game of fights.

4 Yankees Voted To Start Tuesday All-Star Game

NEW YORK - Dave Winfield, Don Mattingly, Willie Randolph and Rickey Henderson gave the New York Yankees half the starting positions for the American League in next week's All-Star Game when the fan balloting was

nounced Wednesday,
No other team in either league had more than two players among the starters picked by the fans. The 58th Ali-Star Game will be played Tuesday in Oukland Coliseum.

Ozzie Smith of the St. Louis Cardinals was the top vote-getter (see Scoreboard), getting 2,254,409 as shortstop for the National League. Wade Boggs of the Boston Red

Sox, the American League's leading hitter at .382, drew the most votes in that league, beating out George Brett of the Kansas City Royals for the start at third base. irett had started the last LI All-Star Games, but Boggs drew 1,529,819 votes to Brett's 699,970.

"It's a big honor, whenever you dethrone somebody like George Brett, who's been there for 11 years," Boggs said. "I think that if George was healthy and having a good year, he would be there." The defending world champion New York M

trailing in the NL East race most of Carter and outfielder Darryl Straw-

to play, but said, "Twe still got five days to work out. I think that I'd like to go to the game and play some-how, whether it's pinch-hitting or

even just playing one inning."

Andre Dawson, signed by Chicago as a free agent this season, won a spot in the outfield along with Strawberry and Eric Davis of the Cincinnati Reds. It's Strawberry's fourth straight start in four full sea-sons, an NL record. Rod Carew and Joe DiMaggio made the AL team their first four full seasons, too.

For the first time in six year The Atlanta Braves' Dale Murphy was not selected. He got 960,388 votes to Dawson's 1,167,091.

Smith is the first Cardinal earn too honors and the fourth consecutive National Leaguer to do so. The last American Leaguer was Milwaukee's Robin Yount in 1983; he also is the only other shortstop

The struggling Baltimore Orioles placed catcher Terry Kennedy and shortstop Cal Ripken Jr. on the starting team. Kennedy will become the first catcher to start an All-Star game for both leagues, having done so in 1985 for the NL

AL team to do it was Oakland in with Montreal on May 1.

berry. The Cardinals, with a solid 1975 (Joe Rudi, Reggie Jackson, lead in the East, also will have two:

Smith and first baseman Jack Clark.

This will be the third All-Star

The Chicago Cube second base start for second baseman Ran
The Chicago Cube second The Chicago Cube' second base-start for second baseman Ran-than 158,000. The man, Ryne Sandberg, has had an dolph, his first since 1981, while highest since 1984.

Ozzie Smith: Top vote getter.

Mattingly, the first baseman, is making his first starting appear-ance. Mattingly is hitting 326 with 10 homers and 52 runs batted in.

"It's a widespread recognition he said. "It's not just the New York area fans that appreciate me now. It's also a great honor to be at the top with all the talent and class at the position these days."

I'm glad I'm in it. It's an appropriate vote," Winfield said. The starting pitchers will be selected by the managers and league officials later this week.

Oakland rookie Mark McGwire, who leads the AL with 31 home runs, topped write-in candidates with 95,498, Montreal outfielder elected to an All-Star team was Raines led the NL with 86,571 threw his first pitch behind Brett five-game losing streak Puleo struck the season, will be represented Montreal in 1983 (Carter, Dawson, write-in votes, Raines started the Butler and, after a warning from out eight in his first complete game among the starters by catcher Gary

Tim Raines and Al Oliver). The last season as a free agent and re-signed plate umpire Tim Tschida, threw his

Yankees Again Trail **But Again Rally for** A 2d Rout of Twins

NEW YORK - The New York Yankees turned a 4-3 deficit in the fifth inning into a 13-4 victory Wednesday. The night before, they had turned a 7-0 problem into a onesided triumph by scoring 12 runs in two immigs. And beneath the firstbase stands in Yankee Stadium, the inhabitant of the manager's office was running out of metaphors.

Lou Piniella's team had scored 25

runs within 19 hours against the Minnesota Twins, the leaders of the American League's West Division.
Which inspired Piniella, that connoissem of offense, to say: "That's

not a rally, that's an explosion." But what else was there to say? How to describe the amazing offensive capabilities of these Yankees, the leaders in the East Division?

Amazing, but not surprising?
"Why should I be amazed?" Wil-

"It's almost like stealing one you shouldn't win," Don Mattingly said. Since they lost three consecutive home games to the Toronto Blue Jays in a series a month ago, the Yankees had won 18 of 26 games to

lift their record 21 games above .500. But the rate of production went beyond the numbers. Wednesday, a day of rest for Randolph and Dave Winfield - two of the four Yankee starters on the American League All-Star team - their team got 16 hits, four of them home runs.

Mark Salas, the catcher acquired in a trade June 7, homered as a pinch hitter with two on in the fifth inning, breaking a 4-4 tie. Paul Zuvella had his first three-hit game as a Yankee. Rickey Henderso other All-Star, had his first four-hit game this season. Mattingly, the fourth All-Star, had his first twohome run game this year and raised his average to a season-high .326.

Mattingly, who has seemed to make his early season struggles a thing of the past, said he thought there could be an emotional link from game to game. "I think there's a momentum thing going into the game, swinging the bats well," he said. "I believe in that." Clearly, however, the Yankees

had made their point against a potential opponent in an American League championship series. Elsewhere in the major leagues, United Press International and The

Associated Press reported: Indians 9, Royals 8: In Cleveland, for the second straight game, a bench-clearing brawl was ignited by "purpose pitches," and for the third straight game Kansas City was beaten in the last inning.

Monday night, Sammy Stewart White and hit Jamie Quirk, fractur-Royals' Willie Wilson began a fight by tackling pitcher Ken Schrom. In the bottom of the first Wednesday, the Royals' states. Van der Poel Wins Hot Race

SPORTS BRIEFS

RENAZE, France (AFP) - Adri Van der Poel became the third Dutchman to win a stage of this year's Tour of France when he won a five-man sprint to the finish Thursday in a bicycle race that saw several crashes and some riders engage in fist fights in

the oppressively hot weather. Van der Poel and the other four broke free of the pack 12 miles (20 kilometers) from the end of ninth stage, which covered 161 miles from Orleans to Renaze. Van der Poel was timed in 7 hours, 5 minutes, 54 seconds, just ahead of Roberto Amadio of Italy, Ludo Peeters of Belgium, Theo de Rooy of the Netherland's and Dominique Garde of France. Switzerland's Erich Maechler did much of the work himself at the front of the pack with his Carrera teammates to retain the overall lead for the sixth day.

Six miles from Renaze, 10 riders in the middle of the pack became entangled on the small country road. Some of the trailing riders, carrying their bicycles on their shoulders, ran into the fields to get past the mass of men and equipment. Others, trying to thread their way through the pile-up, got into fist fights and at least two were knocked to the ground by angry opponents.

New Zealand Win Protested

PORTO CERVO, Sardinia (AP) - New Zealand beat the Japanese entry Bengal for a second day Thursday to win the best-of-three 12-meter yachting world championship pending the review of a protest. A protest flag was raised on the Bengal during the

restart maneuvering. If the protest should be upheld by the judges, the yachts would race again Friday. New Zealand, skippered by David Barnes, crossed the finish line 2 minutes, 7 seconds ahead of Bengal, which had Colin Beashel at the helm. The race, over a 18.7 nautical mile course, was held in sunny weather with winds of up to 18 knots.

For the Record

Marvin Hogler, the former middleweight boxing champion, will pay his wife \$750 a week and can visit his children during weekends under a court approved

three-month separation agreement. The New York Knicks of the NBA, after a 12-week search, named Al Bianchi, a former Phoenix Suns assistant coach, as their general manager and said they should have a new coach within two weeks. Bianchi replaces Scotty Stirling, who was fired along with Bob Hill, the coach, on April 20. (AP) (AP)

Quotable

• Mike Ditka, coach of the NFL Chicago Bears: This is my sixth year with the Bears. Jim McMahon has been with the Bears six years, too, and people say we don't communicate. That's not true. We've talked By Russell Baker

EW YORK - Once again Messrs. Reagan and Messe are word! — ideology when choosing working the old brilliant-mind judges for the highest court in the scam on the Senate. Last time they used it the aim was to get Justice ty demean its great history by op-Rehnquist the title of Chief Justice posing a nominee on ideological of the United States. Now the ben-grounds. eficiary is to be Judge Robert Bork, possessor of a mind so brilliant, we are told, that no one who loves justice can decently oppose putting him on the Supreme Court.

Brilliance, of course, has little to do with what's going on. What Messrs. Reagan and Meese are up to is exorcising the ghost of Earl Warren, which has given them fits

There is a big part of their constituency that still remembers sa-luting "Impeach Earl Warren" billboards up and down the country. For most of the Reagan years, how-ever, this group has got short shrift from the White House.

This was because the administration's first priorities were to shake the money tree for the well-to-do

and beef up the Pentagon. In any case Congress had little desire to reverse 30 years of Supreme Court history which had profoundly changed the nature of the United States. Congressmen tend to be more conservative than California politicians like Messrs. Meese and Reagan. This is because congressmen like to get re-elected, something that can fail to happen to congressmen who want drastic changes in the world's routine.

The Reagan alternative was to pounce whenever it saw opportunities to station righties on the Court. This is doubtless what Messrs. Meese and Reagan would tell you they're up to if you could question them under truth serum. And what's wrong with that?

Campaigning presidential candi-dates commonly discuss the court and the kind of justices they will appoint if elected. Rottald Reagan has always let everybody know that, given the chance, he would exult in creating a court to reverse the decisions of the past 30 years.

When appointment time rolls around, however, the very mention of ideology is met with offended protests, and not only from the president's stewards.

Please, let no one be so boorish

United States would for one instant consider such a thing as - odious land. Nor will the Democratic Par-

To divert us the public from the wholesome reality of what ought to be a good, healthy political brawl, we are given a lot of malarkey about the brilliance of the nominee Justice Sandra O'Connor escaped this humiliation, but the other Reagan appointees received no mercy.

William Rehnquist's brilliant mind was discussed ad infinitum after he was put up for promotion to chief justice. Antonin Scalia, nominated at the same time to fill a vacancy, had his brilliant mind praised by everyone from newspaper columnists to cab drivers.

Scalia wasn't so much confirmed as graduated onto the court maxima cum laude. Any senator who may have suspected Edwin Meese's real intent was not to elevate the Supreme Court's IO but to drive a stake through the heart of the Warplauding Scalia's brilliance to men-

Now it is the brilliance of Bork's mind that is everywhere marveled at. This time there are senators. Democrats, who say yes, brilliant mind perhaps, but it's time to talk ideology: Meese-Reaganism may have won by a landslide in 1984, but this is 1987 and last year it was

In short, they threaten to commit bad taste by turning the Bork nomination into a political debate about what kind of government the country wants after Messrs. Reagan and Meese go home.

That would be healthy and valuable if there were great senators to lead the debate for both sides, but ators nowadays are just people with too much money who know how to give socko performances in TV

This makes it probable that Bork, instead of being the source of a great debate, will probably have to endure months of casual torment by people with cameras on their minds. That's democracy, judge.

New York Times Service

Russians See the Shoot-Up Place

By Samuel G. Freedman TEW YORK - The four So-

Notes doctors were wearing their formal clothes when J.W. Canty, their American host, drove them to Tompkins Square Park in Manhattan. Mikhail S. Gorbachev's search for solutions to alcoholism in the Soviet Union in the form of the first delegation sent to study drinking and drug abuse in the United States - was headed for the outdoor flophouse of the Lower East Side.

"I would ask you all to please remove your jackets," Canty said, as the car moved south on Second Avenue. "And please take off your ties and roll up your sleeves. Because we are going to a very" he paused and groped for the most diplomatic adjective - "informal part of New York."

"Are we going somewhere un-safe?" asked Dr. Katherine Men-

"Only slightly," Canty replied. "Only slightly," Carry repued.
"What exactly is this place we're
going?" asked Dr. Alexey Kampov-Polevoy, leaning forward
from the back seat. "It's a shooting-up place," Canty said.
And then the question came in

unison from the passengers: "A shooting-up place?" What means shooting up?"

At the next red light, Canty took his hands off the steering wheel to pantomime someone injecting drugs into his forearm. The Russians nodded. But even that explicit explanation could not prepare the delegation for what unfolded in Tompkins Square Park on a balmy July eve-

ning.
First a woman in a black leather jumpsuit and a Mohawk haircut cursed the strangers for the quizzical way in which they re-garded her. Nearby, two old men shared a quart of whisky and chattered in slurred Spanish. On a park bench, a young man had passed out face down. A tattoo on his right arm announced. "Josie

"I think this is the worst experi-ence in my life," said Dr. Kanpov-Polevoy, who was shuddering visibly. "I have seen addicts before. But so many, and no one does anything. It could be such a

mer. His efforts coincided both with Gorbachev's campaign The point of the trip was more against alcoholism -exemplified

Russian doctors view alcoholics and addicts in New York City park by more stringent drinking laws, than shock value. In a three-week visit that will end Sunday, the cuts in vodka production and the creation of a nationwide temper-Soviet delegation will have encountered a vast pageant of American alcohol and drug use ance group - and with his policy of glamost, or openness, which has allowed increasing exchanges from watching the fans down beers at Shea Stadium to seeing

with the United States. "This never would have happened before two years ago,," Dr. Andrey Vrublevsky, one of the Soviet delegates, has said during

Canty said: "We're trying to capitalize on a curiosity in both countries about the other. Here we can isolate a common problem and work on it and solve it. And in doing that, we can also learn that we have more in common than we realize. The bottom line on this program is that it can help

The immediate consequence is the presence of the four Soviet tors, all of whom work at the Medico-Biological Problems in Moscow, Dr. Menshikova is a

psychologist, Dr. Kampov Polevoy a psycho-pharmacologist, and Dr. Vrublevsky and Dr. Konstantin Voronin specialize in drug and alcohol addiction.

The Soviet government paid to fly the four doctors to the United States. The Christopher Smithers Foundation donated money to Rutgers University for four scholmer School of Alcohol Studies. The university, in turn, awarded the grants to the Soviet doctors. each of whom are taking two courses in the program. For the Soviet delegation, education only begins in the Rutgers classrooms. After their courses end in the early afternoon, they drive to New York City for first-hand exposure to alcoholism treatment centers, detoxification units, and parks where alcoholics and drug addicts

The four doctors also found time to ride the Circle Line, watch the Fourth of July fireworks from

congregate.

the Empire State Building and have their photographs taken at Strawberry Fields, the Central

Park memorial to John Lennon. While the Soviets have been most shocked by the open sale and use of alcohol and drugs, they have been most impressed by the efforts of Alcoholics Anonymous. The AA method came as a revelation to the Soviets, because the Soviet government has not permitted AA into the country because of the organization's religious context.

"It's of great value that alcoholism patients can help each other, not only to stop drinking, but to grow as a person," Dr. Menshi-kova said. "The most significant thing is the warm climate where everyone can say whatever they feel and be accepted."

"Those people can really open their hearts," Dr. Voronin added. When the four doctors return to Moscow, they will bring with them the first AA literature print-

Pontiff's Love Story Being Filmed for Italy

A love story written by Pope John Paul II is to make its cinemat-ic debut in Italy this year, starring Burt Lancaster, Ben Cross and Olivia Hussey, the Italian national broadcasting network RAI announced. The Goldsmith's Shop. a play written in 1960 when the pontiff was Monsignor Karol Woj-tyla, an auxiliary bishop in Krakow, is being filmed in his native Poland and is due to be completed in Canada by the end of August, RAI officials said. The film traces the experiences of two young Polish couples growing up in Krakow in 1939. The film is due to be screened in Italy in December.

The "Bloom County" comic strip and its Pulitzer Prize-winning he creator have drawn the ire of the laterater of the U.S. National Federation for Decency, who objects to a religious character being named Edith Dreck. The Reverend Donald Wildmon of Tupelo, Mississippi, says the word dreck is derived from |2 the Yiddish term for excrement. He wants the strip discontinued and of the cartoonist Berke Breathed the cartoonist Berke Breathed ic fired. Breathed said he doesn't know Yiddish, and that Wildmoster is "full of dreck" for raising the

Lauren Bacali says she and Shimon Peres, the Israeli foreign minister, may be related, and that Peres plans to investigate the possible family ties. Bacall, in Israel to make a movie, spoke with Peres in his office Wednesday. They noted that their fathers shared the same last name, Persky, and came from Eastem Europe.

The magazine Paris-Match has been ordered to pay the actresses:
Brigitte Bardot and Catherine Deneuve 100,000 francs (about
\$16,250) each for invasion of privacy. A Paris court ruled Wednesday in favor of the actresses concerning an April 1986 interview with the director Roger Vedins, titled, "I Never Lived With Stars, But With Little Girls," describing his life with each of the women, and an open letter from Vadim published in February 1987 after he had beet ordered to pay 60,000 francs each in damages to Bardot and Deneuve for his book, "From One Star To
